

SAFHER

System for Agriculture, Food, Health, E-Inspections, & Registrations

AFDOSS 2024 Annual Meeting

Agenda

- AFDO's role
- What is SAFHER?
- Who is SAFHER?
- User groups
- Architecture
- SAFHER Pricing
- Demonstration

AFDO 's Role

AFDO entered into a multi-year cooperative agreement (2022-2025) with the FDA to develop a state-of-the-art regulatory platform where SLTTs manage their various programs and have the capability to share information across state lines and with the FDA. AFDO's role in the development of the SAFHER platform is one of leadership and project-level management. We provide a voice to SLTTs' needs for this new system and work with stakeholders (i.e., IT vendors, SLTTs, FDA, etc.) to bring SAFHER to reality in the most cost-effective and time-conscious way.

System for Agriculture, Food, Health, Electronic- Inspection, & Registration (SAFHER)

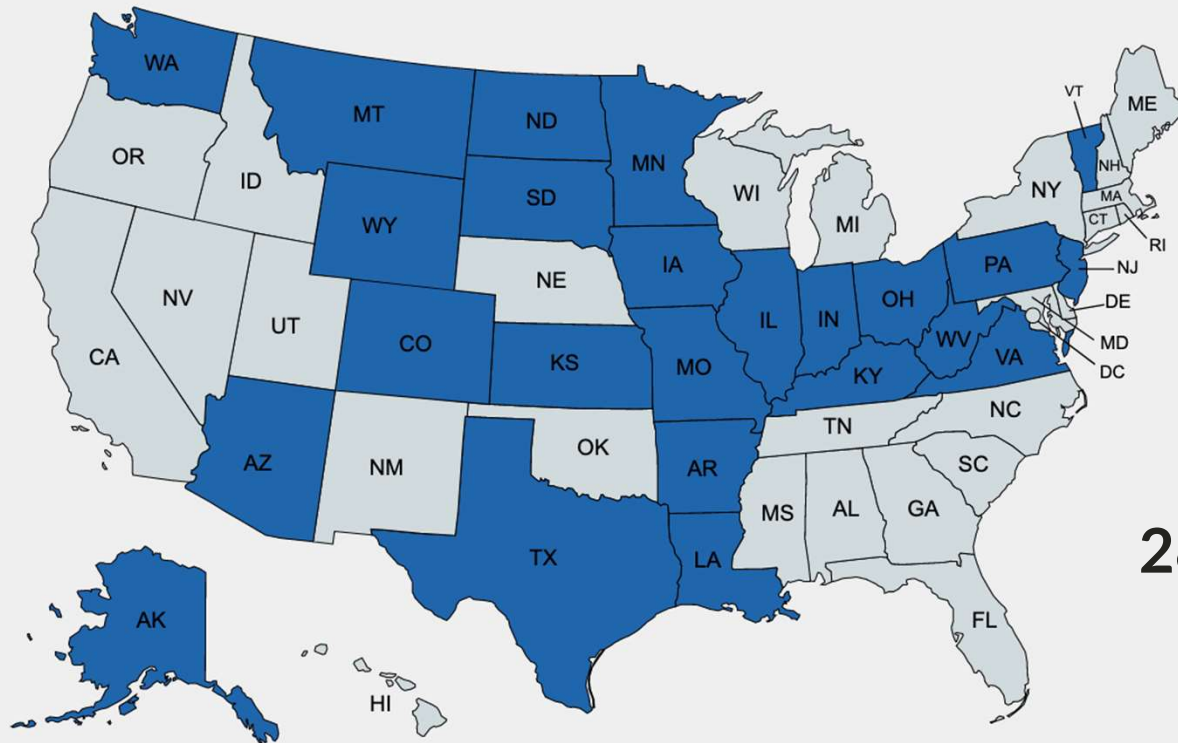

- FDA funded data management solution
- Supports Agriculture & Food Programs
- Empowers States via configurability
- Supports State IT Modernization
- Modern & Scalable Infrastructure
- Combined Investment

SAFHER Core Components

24 States

28 Agencies

168 User Group Members

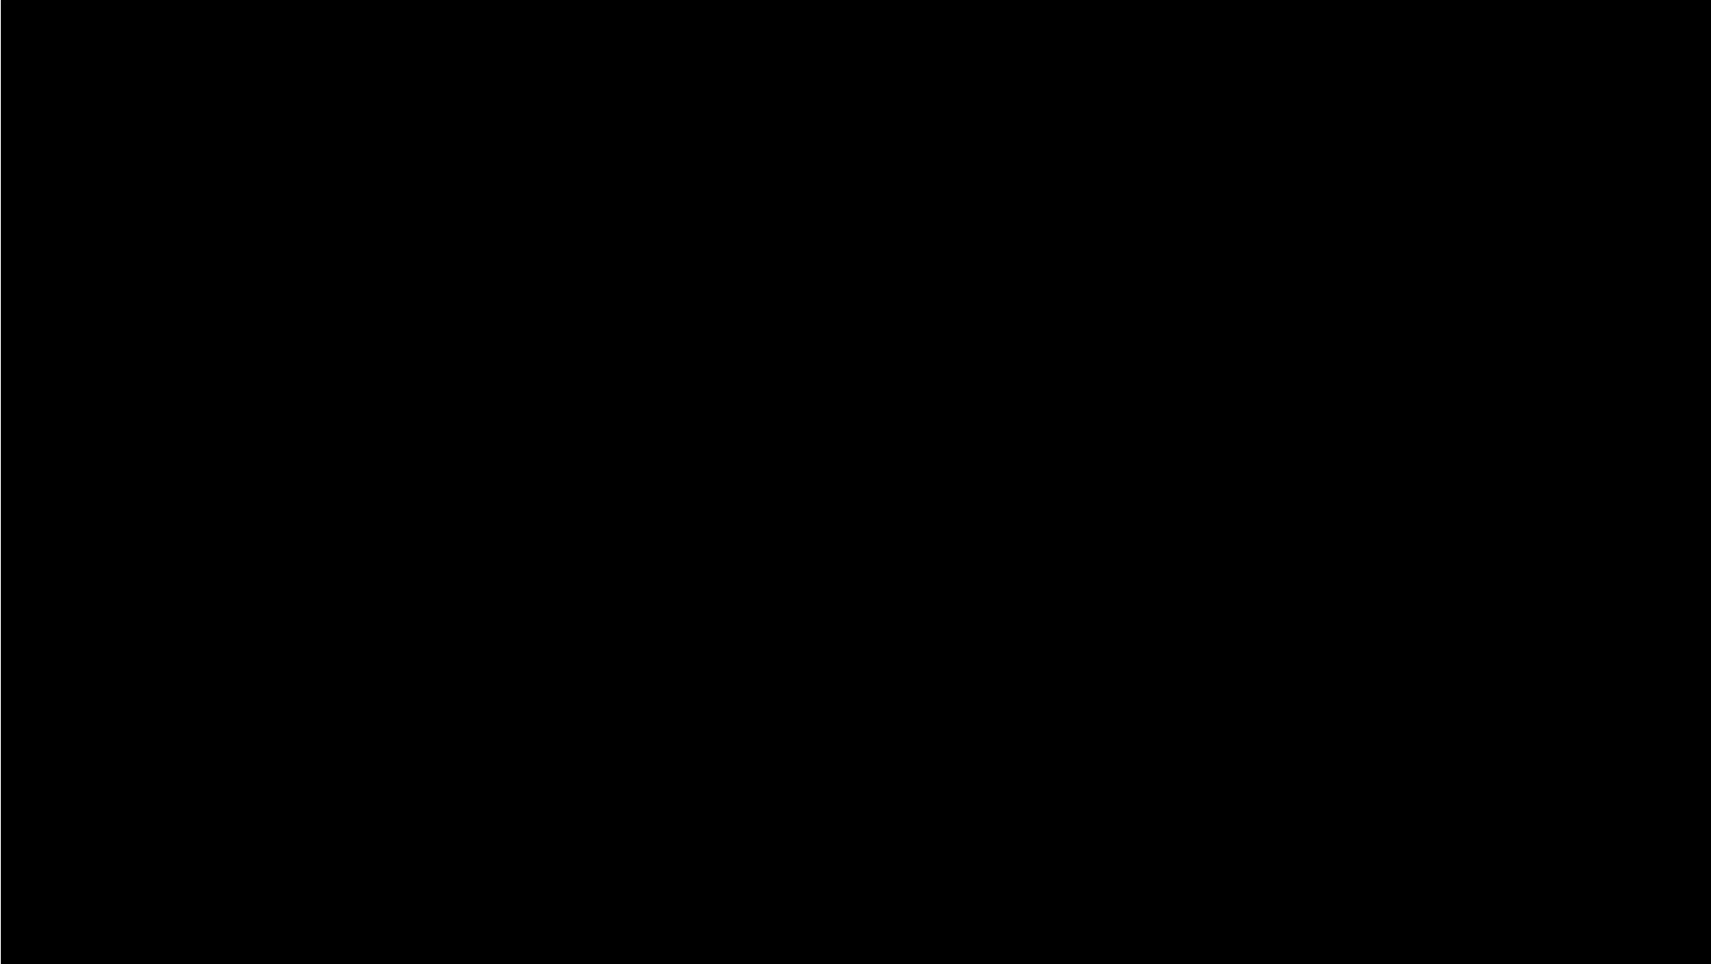

List of User Groups

- Animal Food
- Eggs
- Fertilizer
- Laboratory
- Manufactured Food
- Milk
- Pesticide
- Produce Safety
- Retail Food
- Seed
- Shellfish
- Weights and Measures
- IT

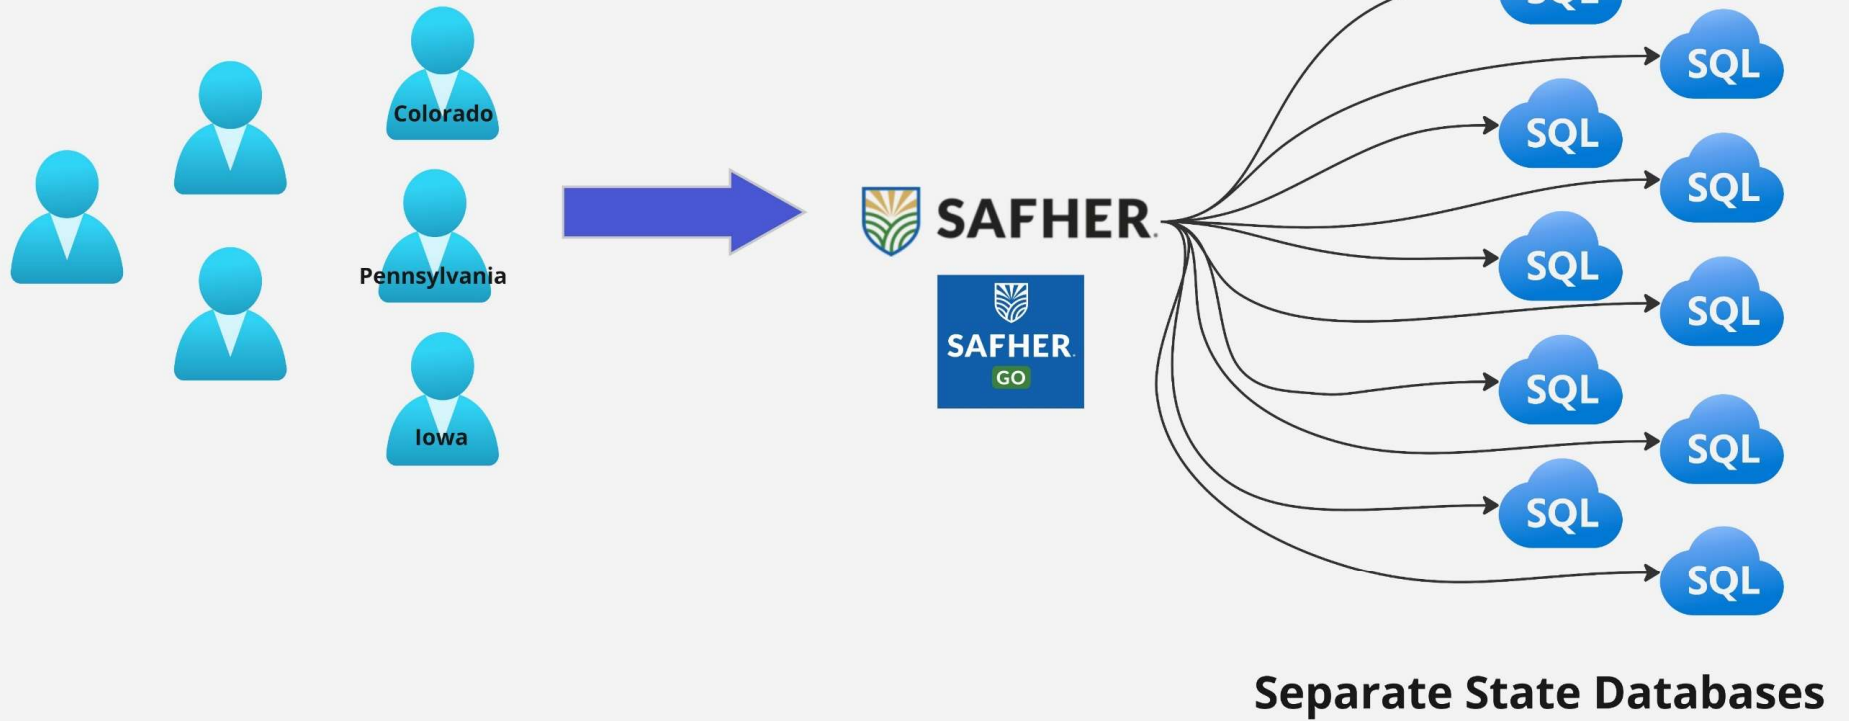

SAFHER Technology

- SAFHER is built on Appian, a low code enterprise-scale platform.
 - **Low-code platform:** most often used by IT professionals with some coding skills to create custom applications.
 - **No-code configurations:** allow business users without any knowledge of how coding works to address their own development needs.
 - **Government Cloud Hosted** on the secure Appian GovCloud

State's SAFHER Data

Pricing & Contracting

- Initial pricing proposed in August to SAFHER's Executive Advisory Committee (EAC)
- EAC and AFDO determined further cost reductions would make SAFHER more affordable
- AFDO is coordinating an abbreviated discovery process with the SAFHER pilot states as way to refine costs
- Final pricing will be released when AFDO and EAC are satisfied we have the best pricing possible
