NEW AT THE SHOWROOM... PRISM FIRE FEATURES

Cooler evenings are the perfect excuse to gather around the fire. Known for their beautiful handcrafted look and design, Prism fires combine modern elegance with the inviting warmth of a real flame. Available in a variety of truly unique shapes, sizes, and finishes, they're a stunning centerpiece for any patio or backyard. Stop by our showroom to explore the collection and find the perfect fit!

HIGH EFFICIENCY WOOD FIREPLACES

Today's EPA certified wood-burning fireplaces offer the beauty and warmth of a real wood fire with improved heating efficiency. Designed to burn wood more completely, they produce significantly less smoke and use less fuel than traditional open fireplaces, while delivering significantly more heat into your home. They're also a reliable source of warmth during power outages, making them a beautiful, practical, and environmentally responsible way to heat your home.
