Saint Bernard Abbot and Doctor of the Church

1090 - 1153

FEAST DAY: AUGUST 20

Known as Bernard of Clairvaux, this French abbot and doctor of the church is considered the second founder of the Cistercians. He entered the relatively new monastery at Citeaux in 1113 with four of his own brothers and 27 friends, and later founded the monastery at Clairvaux, which gave birth to 68 other communities. Despite poor health and his devotion to personal mortification, Bernard was an early Western European rock star: He was consulted by popes and kings, battled heresies, and supported the Second Crusade. The sick and maimed lined the roads he traveled, hoping for a miracle. Dante chose Bernard as his final guide in "Paradiso," at the end of "The Divine Comedy." He is the patron of Gibraltar.

St. Joseph's Zintkala Hall Makeover — Cherry Creek

BEFORE

AFTER

This past fiscal year we had budgeted \$3000 for painting the hall in Cherry Creek. It had particle board walls and was in need of many surface repairs (outlets, trim, etc.). With the wonderful help of Sherwin-Williams Paint Store in Rapid City I planned the project and purchased the paint (they give a considerable discount to churches also). I planned a 5-day (workdays) project through the month of May. In the end it took about 7 workdays through July but we ran into extra work and scheduling conflicts along the way. A special thank you to Rose Romero, Aiden, Aniya and Aneesa for their help. Our expenses came out to this:

Supplies **\$1,600**

Local Labor **\$1,703**

TOTAL = \$3,303

Pictured Left (left to right):

Aiden, Aniya, Benjamin, Mack, Ellie, Aneesa, Rose Mary Trask, and Rose Romero.

My sister, Becky Bruch, brought her three oldest children to help on our main painting day for the confirmation class project. My mom, Rose Mary, brought them. *thank you!*

FAITH FACTS

A cistern from
Biblical times

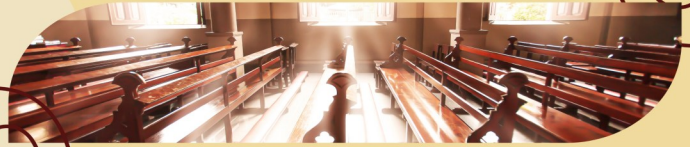

Jeremiah 38:4-6, 8-10

In Biblical times, rainwater was collected during the rainy seasons for use during the dry seasons. The water was collected in cisterns, like the one shown above. The best cisterns were carved out of rock. They would have a sloping pavement above, from which water would drain into the cistern. Cisterns could be very large. The dimensions given above are those of a real ancient cistern, excavated by archaeologists.
