READY TO TRANSFORM YOUR TEACHING WITH AI?

Join educators from across Kansas for an intensive one-day summer institute exploring artificial intelligence in education. Whether you're just beginning your AI journey or ready to build custom classroom tools, this institute offers something for everyone.

WHAT YOU'LL EXPERIENCE

- Gain an understanding of AI fundamentals
- Keynote speaker highlighting the opportunities and ethical considerations of AI in education
- Choose Your Track afternoon workshops for Beginner, Intermediate, and Advanced users with real world applications

PERFECT FOR

K-12 Educators, School Administrators, High School Counselors, and anyone committed to preparing students for an AI-enhanced future.
