		Voted Upon Prices and Wages																	
		Product Grades	Government	Low Upgrade						High Grade	Non-Profit	Dividend Paying	Trade open on Thursdays and Fridays Only						
				Flex Based on Supply/Demand but Free Market in each good will reduce inflation.							Reinvested Earnings High Wages Cause-Based Invest Excess Cash into Community Demand	Excess Cash is Paid to Shareholders when profitable	Sole-Source Finance Chip for Trading on the same Time Blockchain. (like a wall-street GPU slot for your phone or cpu). No Debt Markets. (Subsidize and Write-Off) Derivatives okay if there is no interest on federal debt (can still take out a 0% loan with the government for business). Could Invest in these loans with split earnings. So ETFs, Mutual Funds, Futures, Crops, etc. All good.
