Re: Buy America Preference

To whom it may concern:

Ram Sales LLC, dba RAM Steel Framing, is a manufacturer of cold-formed steel framing and accessories for the residential and commercial building construction industry. RAM's products comply with The American Recovery and Reinvestment Act of 2009 (ARRA) and the The Build America, Buy America Act (BABA) passed in 2021. This domestic content preference, known as the Buy America Preference (BAP), ensures that all manufacturing processes for these materials occur in the U.S. and that a certain percentage of the components are also domestically sourced. RAM purchases its raw materials, coated steel coils, from domestic steel mills. The steel mills meet the requirements of this act by substantially transforming their steel from a variety of raw materials that may come from domestic and foreign sources. In addition, RAM's products comply with the "Buy American" provisions of the United States Code of Federal Regulations.

Our products are manufactured in three U.S. manufacturing plants located at:

1. Miami Facility - 3330 NW 48 Street, Miami, FL 33142 (305-634-0012)
2. Orlando Facility - 1150 Albright Road, Sanford, FL 32771 (407-915-4776)
3. North Carolina Facility – 1817 Westinghouse Blvd, Charlotte, NC 28273 (844-726-6382)

RAM sources its raw material primarily from the domestic sources below:

1. Nucor Steel (Huger, SC and other U.S. facilities)
2. U.S. Steel (Birmingham, AL and other U.S. facilities)
3. Steel Dynamics (Columbus, MS and other U.S. facilities)

Ram Sales LLC, is proud to be a member of the Steel Framing Industry Association (SFIA), ASTM International, the Association of the Walls and Ceilings Industry (AWCI), and the Florida Walls & Ceiling Contractors Association (FWCCA). We stand behind our products to meet or exceed all industry standards. Please contact our Technical Support Hotline with any questions at 1-844-4-0-STUDS (78837).

Respectfully,

RAM Technical Services

This letter supersedes any and all previous versions.
