

Your range. Your packaging.

Professional catalogue 2026

Our usual packaging and a complementary range to bring your project to life.

The packaging we use

Available on our website

Complementary range · Subject to quotation

The original packaging

White-label orders: minimum 100 units per reference in the original packaging of its formula reference. To change the packaging, the minimum quantities below apply. Each new packaging requires compatibility approval for the product.

1. The packaging we use

The first part contains the containers, pumps and caps available on our website in the Packaging category. To choose another container from this range: minimum 300 units per reference, subject to compatibility.

2. Complementary range

The models in the second part are offered subject to quotation. To fill a formula into packaging outside our usual range: minimum 1,000 units per reference. Contact us before ordering.

Compatibility of each formula

Any change of container, pump or closure requires approval of compatibility between the product, its packaging and accessories. Conditions and availability are confirmed in the quotation.

Personalise your choice

Pumps and caps from our range

To choose a pump in stock or a flip-top or disc-top cap available on our website: minimum 100 units. All the pumps and caps we use have a 24/410 neck finish. Their compatibility must be approved.

White tubes ready for screen printing

First order: minimum 1,000 units per reference. Repeat orders: minimum 500 units. Customisation and conditions subject to quotation.

Optional carton or box

You can complete your product presentation with a box or carton. Minimum 500 units, subject to quotation. Format and compatibility are approved for the chosen product.

Request a quotation

Specify the formula reference, packaging references and quantities required. Prices, availability and lead times are confirmed in the quotation. Format-specific conditions are shown on each product card.
