ABOUT THE ARTIST

I am a passionate and thoughtful artist based in Salisbury, Wiltshire. With a deep appreciation for Japanese animation culture, American graphic novels and music that moves, I like to create visually captivating works that make people happy, smile and laugh... maybe even think again.

From an early age, I found inspiration in video games, professional wrestling and toy collecting. My idols growing up were Hayao Miyazaki, Jim Davis and Kenichi Sonoda. Over the years, I have refined a unique artistic style characterized by the comic strips of Garfield blended in with an appreciation for the Super Deformed or "Chibi" illustration technique.

EDUCATION & TRAINING

I have no formal Art & Design qualifications – I am self taught – but actively pursuing courses in my chosen areas of expertise. I have also been a member of the Unity Art Studio based in Andover.
