Our story...

When you march to the rhythm of your own drum,
you have to do things a bit off the beaten path.

When we came up with the idea of an art concept hotel with affordable enough rates to accommodate travel for all, we were told it was impossible by everyone except the people of Tucson. Here, at the edge of barrios Menlo park and Santa Cruz, we found a mid-century modern hotel right off the freeway, sans noise. After one year of beautification and local art consultations, we opened the doors to Tucson's first art hotel. Here at Hotel McCoy, we are thrilled to offer incredible amenities and a central location without a downtown premium price.

We love Tucson and hospitality. Though we as a community and humanity are facing great challenges with the virus that shan't be named, there is still much to be enjoyed in our desert wonderland. We appreciate your patience as we navigate the ever changing waters. Know that everything we do is to keep people safe while preserving the magic of Hotel McCoy, all the same. Behind each of our masks are big friendly smiles. We hope our little hotel serves as a sanctuary and a retreat while you are here.

Mother Earth

Environmentally friendly. It’s not an option, it’s a priority, which is why we designed this hotel to LEED standards. Our walls are covered with no-VOC paint, our rooms are lit with LEDs, and we use biodegradable and recyclable products whenever possible.

HOTEL MCCOY IS NAMED AFTER A LITTLE KNOWN MOUNTAIN RANGE

Designed in 1966 and built in 1971, our hotel falls into the late innings of the mid-century modern era. If you’re into it, Tucson is one of the best places to experience MCM architecture.

BARRIO BOOKS

Paperbacks on planes, beach reads by the pool, and memoirs of wanderlust. We can't think of a better duo than books and travel, which is why we are the first hotel in Arizona to offer guests an on-site bookstore. Barrio Books is owned and operated by a local literary advocate. It’s shelves are stocked with bestsellers, works by local authors, and all sorts of fun treasures for anyone who likes to read. Look for the red door and get ready to explore - **Hotel McCoy guests receive 10% off any purchase.**

Our Little Shop

FUN STUFF YOU PROBABLY NEED

Take a little piece of Tucson back to your friends and family. Everyone loves a souvenir! Since you can't exactly pack a saguaro in your suitcase, may we direct you to Our Little Shop, your one-stop-shop for all things tchotchke.

Tucson Tamales

Choose from a rotating selection of tamales from Tucson Tamale Company, served steaming hot. At $4 a pop, these savory little numbers are perfect for a breakfast upgrade, lunch, beer pairing, or late night snack. We serve 'em up in the lobby, with a side of hot sauce (upon request). Using Mama Celia's recipes, non-GMO corn, and hormone-free meat, Tucson Tamales are also certified gluten-free. Love 'em as much as we do? Grab a few for the road from our tamale freezer.

Bar & Bites

IN THE LOBBY

Tucson Sunshine Climate Club

WELCOME! BAR HOURS: 6AM-MIDNIGHT

Our lobby lounge is named after a group that existed here in Tucson back in the good 'ol days. Created by two physicians, Dr. Huett and Dr. Kline, the organization began in 1920, advocating for the health benefits of sunshine and “dry heat” and later evolved into a city funded tourism campaign, luring out-of-staters in with promises of cactus forests, spectacular sunsets, and the finest country clubs. With amazing catchphrases like “trade frostbite for suntan” we still don't understand why the Tucson Sunshine Climate Club dissolved in 1962.

Paying homage to our namesake and our commitment to bring you, our guest, an authentic Tucson experience, The Tucson Sunshine Climate Club offers craft beer made right here in Tucson and wine made in the great state of Arizona. Like our old friends at the The Tucson Sunshine Climate Club said near 100 years ago, “the sunshine season never ends in Tucson”-so why not have another drink?

Here in Tucson, we love our **craft beer, local wine** , and **Arizona-made hard ciders, seltzer** and **kombucha**. The city is home to over 25 breweries and there are over 100 wineries in Arizona, most of them right here in the southwest region of the state. If we could, we would offer every brew and varietal on the market, but alas, we had to narrow it down to a few of our local favorites. Take a couple of drinks back to your room, or imbibe poolside. You’re on vacation (or here for business, whatever, we won’t tell). Enjoy yourself!

ART

Every piece of art you see,
from the murals to the in-room paintings,

WAS CREATED BY A LOCAL TUCSON ARTIST

Art is a powerful language. It can make us feel, unlock emotions, and connect us to places and moments in time that have long passed. Through mural covered walls, the wondrous lobby art gallery, scattered exhibits, and the brilliant works of art on your room's walls, you are experiencing the heartbeat of this little city. Art is more than a feature, it is the very foundation of Hotel McCoy.

MURALS

Hotel McCoy Tucson is home to 79 murals, each one painted by a muralist who calls southern Arizona home or has stayed with us through our Artist Residency program. These works of art cover our exterior and some of our guest room walls. We love to see our walls through your eyes. If you post, be sure to tag @hotelmccoy and the artist.

ART PROGRAM

If a work of art comes off the wall, it's for sale. Hotel McCoy is a living art gallery, your room and the lobby function as exhibit space. Unlike traditional art galleries, our program is commission free. The local artist who brought the piece to life sets the price and retains 100% of the proceeds.

ARTIST RESIDENCY

Not all who wander are lost. In fact, many of them are artists looking to stopover in Tucson for a bit. If you would like to apply for an Artist Residency, please reach out to nicole@hotelmccoy.com. Ranging from one to four weeks, we have hosted muralists, writers, musicians, painters, and poets through this unique program.
