My Response:

Whispers in the Darkness
YHWH Roars from Zion
Amos 1-2

Weekly Memory Verse: "The Lord roars from Zion and from Jerusalem He utters His voice." Amos 1:2a

When you hear that YHWH is roaring from Zion what picture do you think Amos is trying to paint for the people of Israel?

If God was roaring today what might He say to our nation?

One of the great themes of Amos is God's love for the poor, oppressed, weak, and unrepresented. Who fits into those categories as we think about the church in the world today?

How do you think the God is calling the church today in a modern day call from Amos to Hughesville?

In the same way that Jonah cried out to Nineveh God is calling through Amos to His people in Israel. Amos gives them far more than "40 days and ____ will be overthrown". What does God highlight in His accusations against Israel?

Jeroboam II had led Israel into a time of wealth and excess as they worshipped the golden calves and idols of the age. How is wealth danger to the human soul?
