

# Natal Chart Report for Taylor Swift

## Introduction

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

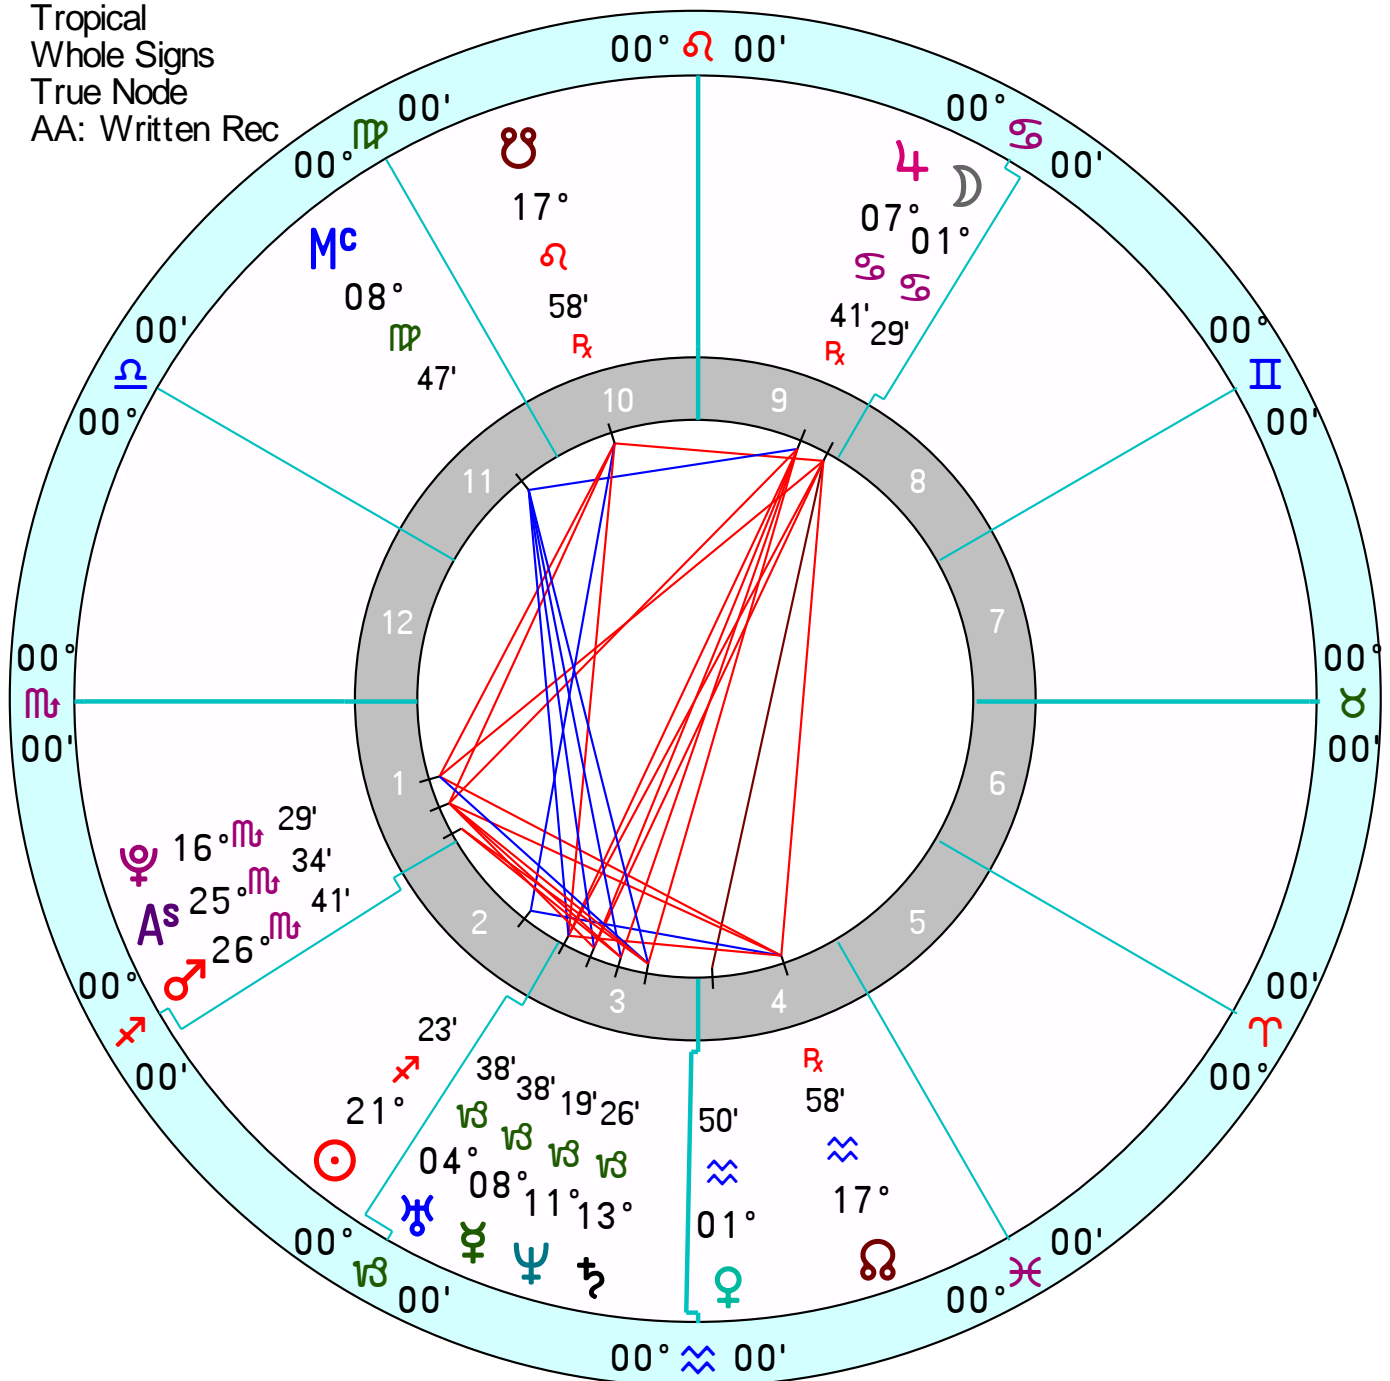

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

**While most people only read their Sun Sign when they read forecasts or astrology chart descriptions....it is just as valuable (if not more so) to **ALSO** read information according to your Moon and Ascendant/Rising sign. The combination of Sun, Moon and Ascendant will give you a full and rich insight beyond your Sun Sign!**

You enjoy debating and impressing your ideas onto others.

# Venus

**Venus describes your appreciation of beauty and the arts, your powers of attraction, and your capacity for close personal relationships and love affairs.**

## Venus in Aquarius

Friendships are the most important unions you make in life. You hold modern and contemporary views on love-relationships and people are attracted to you because you know what's in and what's not. Conventional and routine relationships don't interest you. Instead, you thrive on variety and intellectual stimulation in love.

## Venus in 4th House

You need peace in your domestic and family life, as you find it difficult to cope with disharmony in the home or the family. You appreciate fine furnishings and will make every effort to decorate your home tastefully or aesthetically. You enjoy entertaining at home and are likely to be a good cook or a keen gardener. Your relationship with one or both of your parents is likely to be positive. Happiness in your later years is often a feature of this Venus placement.

## Venus Sextile Mars (5°09' A)

You tend to be favored in love, as you express affection easily and are naturally attractive to others. Other people sense that you're not someone to mess with. In conflicts or aggressive situations, you stand your ground and hardly ever concede defeat. Power struggles are commonplace in your life.

### **Mars in 1st House**

You are bold, assertive, combative and impatient by nature. You can tend to act first, think later or jump to conclusions. Not content with just watching life from the sidelines, you need to have direct experiences and to feel that you are living life to the max. Equally, you can be headstrong and inconsiderate; wanting things your own way or not at all. Physically, you should enjoy good stamina and body strength. However, with your tendency to impulsiveness, there may be accidents and injuries, especially to the head.

## **Jupiter**

**Jupiter describes how you relate to the larger world beyond your personal self, how you expand in life, and experience higher learning, travel or religion.**

### **Jupiter in Cancer**

Vocationally, you may have a flair for teaching or lecturing, the legal profession, publishing or the travel industry. Gains can be made in foreign lands.

### **Jupiter Opposition Saturn (5°45' S)**

In general, your life alternates between periods of optimism and pessimism and periods of financial abundance and financial hardship. It can sometimes seem that everything good that happens to you comes at a cost. Your challenge is to find the middle path between enjoying life and keeping it real. Occasionally, you experience feelings of dissatisfaction with your lot in life; however this can serve as a motivation to improve your situation. All of your personal successes - academic, financial or emotional - are hard won and gained through industry, perseverance and self-discipline. You have a good head for business because you understand the cycles of expansion and consolidation. Your philosophical outlooks tend to be orthodox and conservative.

### **Jupiter Opposition Uranus (3°03' A)**

It is difficult to say for certain how this aspect will play out in your life because it is truly unpredictable. For example, you are prone to experiencing sudden events that can change your life dramatically, for better or worse. You are quite happy doing your own thing and don't concern yourself with other people's opinions. Your faith in your own abilities is usually strong and, regardless of what may be happening in your life, your trust in the future rarely flags. You have an eye for good opportunities, coupled with a keen intuition and an exceptional sense of timing. At times, you can be annoyingly contradictory by fluctuating between liberal and hard-line attitudes.

### **Jupiter Opposition Neptune (3°38' S)**

You are a selfless and compassionate person who is receptive to the needs of others. Spiritual subjects interest you greatly and it is possible that you possess psychic ability. You have a great amount of imagination and inspiration, which you may effectively channel into creative expressions such as music, theater, dance, film or painting. You are essentially an idealist who sometimes sees the world through rose-tinted glasses. As a result, you can perceive situations to be quite different to what they are in reality. On a mundane level, you may have an enthusiasm for gambling and risk-taking; however it is impossible to tell if your speculations will succeed or fail - so you need to take care, especially if you cannot afford to lose.

## **Saturn**

**Saturn describes your experience of reality, your fears and inhibitions, where you are serious, and how you respond to society's rules.**

### **Saturn in Capricorn**

Your will is strong and unyielding. Ambitious for power, status and authority, you tend to measure your self-worth through how satisfied you are with your personal achievements. You are self-disciplined, practical, frugal and aware of your responsibilities.

### **Saturn in 3rd House**

You are a deep and contemplative thinker, who is capable of profound thought and mental concentration. You have good reasoning powers and may demonstrate the ability for scientific thought or mathematics. However, you may lack intellectual confidence or experience disruptions in your early education. You are a serious person with little interest in idle chatter or light conversation. Relations with siblings or neighbors can be strained at times.

### **Saturn Conjunct Neptune (2°07' S)**

These two planets are almost polar opposites: Saturn represents reality and boundaries and Neptune represents that which is beyond reality and without boundaries. Having this aspect means you experience periodic struggles between pursuing your spiritual inclinations and meeting the demands of the material world. Physically, you are prone to re-cycling bouts of low vitality and illness. In spite of the challenges you encounter in life, you never waver in your desire to help others.

### **Saturn Sextile Pluto (3°03' A)**

Everything you achieve in life is as the result of sheer determination and effort. You have great powers of endurance and perseverance, coupled with a tenacious attitude and the self-discipline to see things through to their successful conclusion.

Your schooling may have been unusual in some way, or possibly interrupted. You have a low threshold for boredom and require ample intellectual stimulation. Modern technology, scientific breakthroughs, mystical subjects and whatever's "in", all interest you. Your relationships with relatives and neighbors are rarely dull.

## Uranus Conjunct Neptune (6°41' A)

These two planets come together every 172 years; most recently in 1993 and prior to then in 1821. People that are born during the conjunction are destined to have a special, almost indefinable aura about them. They combine idealism with innovation; hence they have the capability to imagine possibilities and to make them a reality, through making use of progressive thinking and technological knowledge. A vivid example of the effects of the 1993 conjunction is the limitless potential of the Internet; it incorporates the most up to date computer technology and dissolves national boundaries. On a personal level, you have a deep interest in spiritual development. You may be psychically gifted, if other factors in your horoscope support this.

# Neptune

**Neptune a generational planet - describes your personal and peer group experiences of spirituality, your powers of inspired fantasy and areas of illusion.**

## Neptune in Capricorn

You are inclined to hold idealistic or unrealistic views about big business, multi-nationalism and government policies. However, you are equally aware of the danger of placing indiscriminate faith in established structures because you recognize their underlying fragility. You are part of a generation that witnesses the dissolving of national boundaries, through such phenomena as the Internet and global communication.

### Neptune in 3rd House

You can be given to daydreaming, but also to idealistic and inspired thinking. At times, you can have difficulty explaining your thoughts and ideas clearly to others. You are imaginative and creative, which can lead to an involvement in the artistic, musical or literary fields. Relations with relatives or neighbors can be difficult due to misunderstandings or miscommunications. Note: great care is needed with contracts!

### Neptune Sextile Pluto (5°10' A)

Neptune and Pluto are the solar system's slowest moving planets; consequently aspects between them last for a great number of years and their effects are less personal than collective. Since 1940 and continuing until about 2040 they are in sextile aspect to each other. The major effect of this is to accentuate spiritual awareness and development en masse. You are part of a generation that is intent on exploring and refining the inner aspect of life and consciousness itself. You will be aware of a universal interest in metaphysical subjects, clairvoyance and psychical research.

## Pluto

**Pluto a generational planet - describes your personal and peer group experience of upheavals, forces beyond individual control, power and irreversible changes.**

You have an uncanny instinct about other people's strengths and weaknesses, which you can use to your advantage. Others may find it difficult to get to know you easily, as you tend to conceal aspects of your character. You rarely do anything by half measure; you are essentially an all-or-nothing sort of person. You are a natural survivor and can undergo several transitions in lifestyle, during the course of your life. On occasion, you can be bossy and domineering.

# The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

## The Qualities

### 43% Cardinal

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

### 43% Fixed

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

### 14% Mutable

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

## The Elements

### 14% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are out-going and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive, demonstrative, bold and courageous. They can also be impatient and bossy, willful and reactive, especially when they face delays or obstructions in their path.

### 36% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hardworking and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

### 14% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more pro-active and self-determining you are:

The Air signs go for freedom of action and freedom of movement. Air signs need to be able to come and go at will. Their domain is the air we breathe; hence they are conduits for communication and the exchange of ideas. They are mentally alert and intellectually stimulating. Gregarious and sociable, Air signs like to be around other people. They are observant and perceptive, curious and inquisitive. They live totally in the here and now, and want to be in whatever is going on.

### 36% Water

The Water signs are Cancer, Scorpio & Pisces. The more planets you have in the Water signs the more needful you are of emotional security:

People with a majority of planets in the Water signs are motivated by the need to gain security in their emotional lives. They are sensitive, deep, compassionate, imaginative and intuitive. Their inner lives and dream lives are very active. They are spiritually inclined and potentially psychic, with an ability to tune into others. Life is experienced as a mystical journey. They can also be hypersensitive, impressionable and emotionally needy.

### Introduction

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

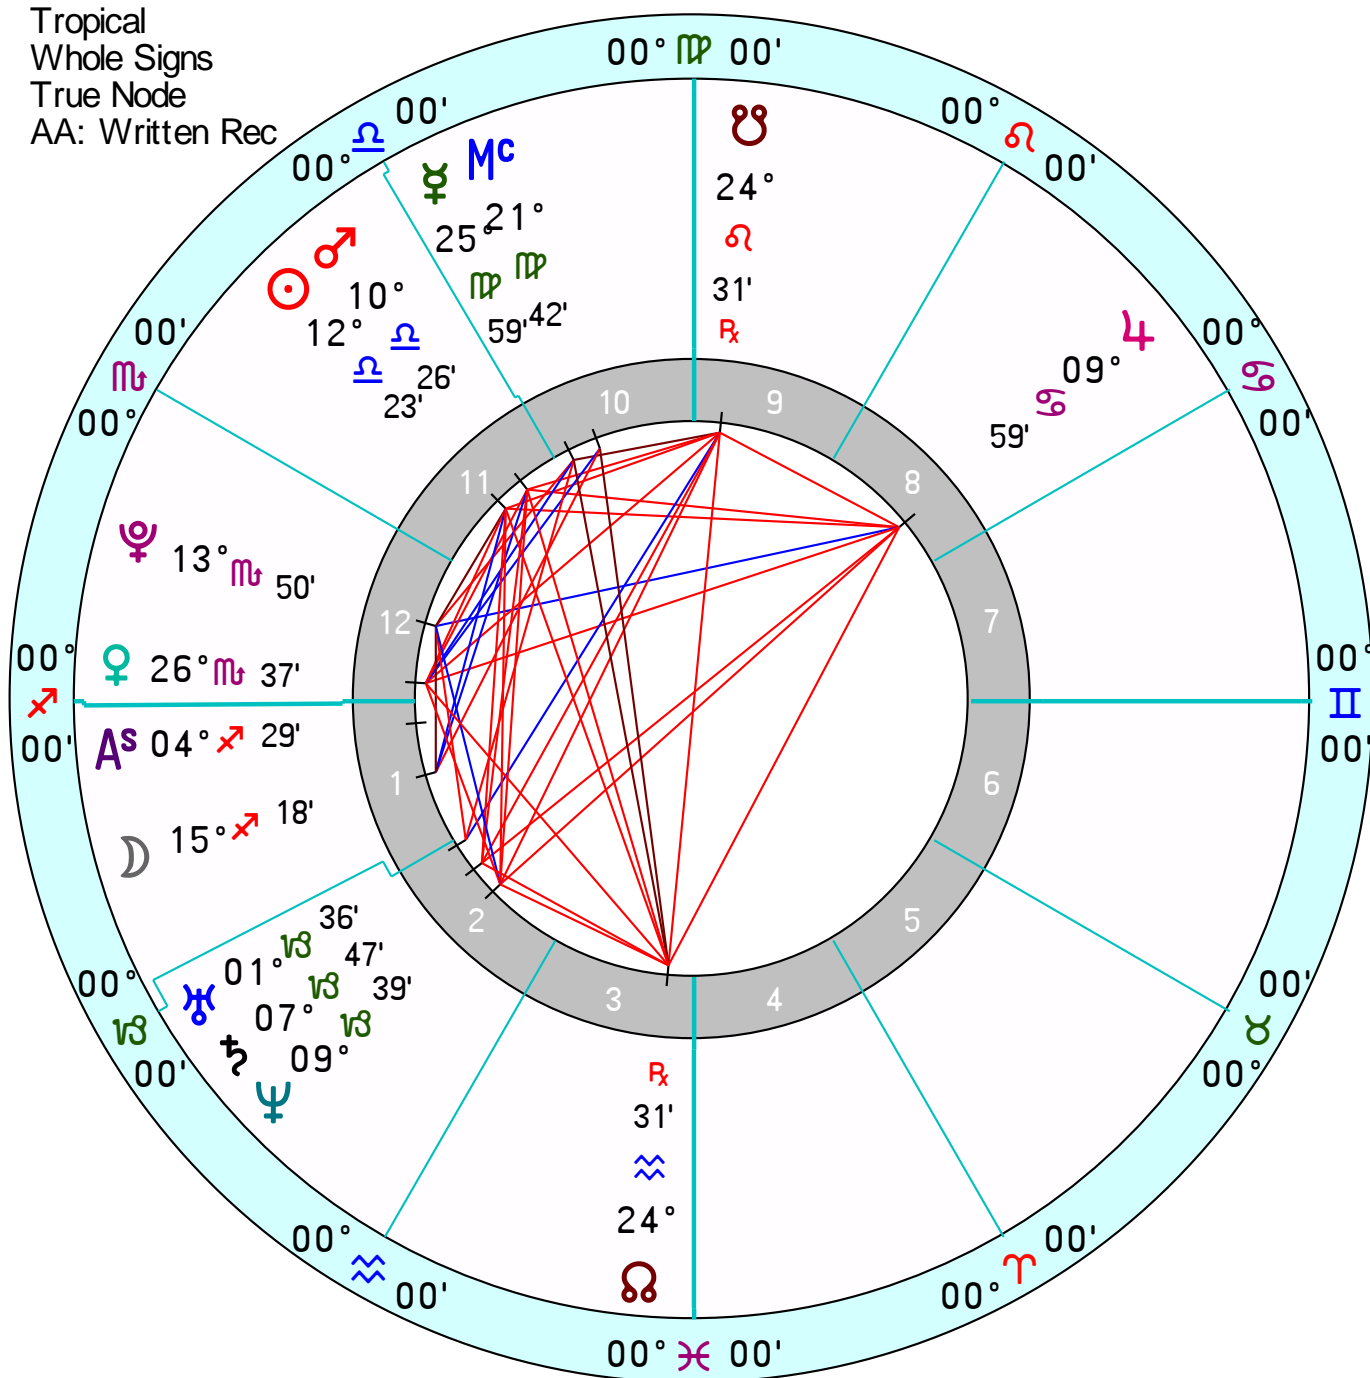

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

**While most people only read their Sun Sign when they read forecasts or astrology chart descriptions....it is just as valuable (if not more so) to **ALSO** read information according to your Moon and Ascendant/Rising sign. The combination of Sun, Moon and Ascendant will give you a full and rich insight beyond your Sun Sign!**

Your primary motivation in life is to attain power and recognition. You have a strong need for a restriction-free environment, with room for movement and self-expression. You love nature, the great outdoors and adventurous situations. You have an open, friendly and frank personality, but can occasionally be opinionated, moralistic and tactless. A true seeker of wisdom and knowledge, you range far and wide geographically and intellectually. Higher education and international travel appeal to you. Most likely you will pursue both of these.

### Ascendant Sextile Sun (7°54' A)

You project an aura of confidence and self-assurance that announces to the world "I know who I am and what I'm worth". You have a strong desire to become important or to gain the esteem of others. ### Ascendant Conjunction Venus (7°52' S)

You possess physical appeal, a charming nature, sophistication and a good fashion sense; all of which favor you socially. You may have artistic talents; you will certainly have an appreciation of the arts and culture. You have good taste and an eye for style and design.

### **Ascendant Sextile Mars (5°57' A)**

Hardworking and industrious, you are goal conscious and determined to realize your personal desires. You are ambitious for recognition and you achieve successes through your own efforts and self-motivation. You are a good organizer and like being in charge of situations. Giving orders or instructions to others comes naturally to you. In general, your physique is strong and hardy and you recover from low-level illnesses or injuries comparatively quickly. You face life's battles head on and are rarely daunted by much at all.

## **Sun**

**The Sun describes your sense of personal identity, your creative expression and ability to realize your individual potential and gain recognition.**

### **Sun in Libra**

You have well-developed social skills and are motivated by a desire for personal, social and relationship harmony. You prefer the company of others to solitude and enjoy social occasions and outings. Possessing a natural sense of justice, you have good powers of comparison, which enables you to appreciate both sides of any situation. This makes you gifted in the arts of diplomacy and peacemaking. You have an aesthetic and refined sense, with an appreciation of the finer things in life and beauty and the arts. At times, you can be too dependent on others and overly needy in relationships.

### **Sun in 11th House**

Your social life is central to your self-development. Your friends are important to you and will tend to remain constant. In fact, you will probably have friends in high places. You are popular within groups or societies and may hold important positions in them. You are socially aware and integrate well with others.

### **Sun Sextile Moon (2°55' S)**

All things considered, you have a sense of inner harmony and, in general, a good relationship with the opposite sex and your family. Your parents encourage individuality in you and, for the most part, do not interfere in your personal life. Physically, you have good stamina and strong recuperative powers.

### **Sun Conjunct Mars (1°57' S)**

You have strong willpower and the drive to achieve whatever is important to you in life. Naturally assertive, you like taking charge of situations and making your intentions known. You have leadership potential. Self-motivated and ambitious, you enjoy an active life-style. Advancements you make in life are based on your personal efforts and determination. You have quick reflexes and are able to respond to situations immediately. Negatively, you can be overly aggressive and competitive towards others.

### **Sun Square Jupiter (2°24' S)**

You are motivated to improve yourself and to rise in life. You know how to enjoy life and indulge yourself; however you can overdo the good times. You can also be quite reckless and careless with money. Self-promotion and extravagance come naturally to you; modesty and moderation do not! You are inclined to exaggerate and blow things up out of all proportion.

### **Sun Square Saturn (4°36' S)**

You have a serious and realistic outlook on life based on hard experience and lessons learned in 'the school of hard knocks'. You encounter many difficulties and obstacles in life, and your share of challenges and defeats. Yet, in spite of these, you have great powers of perseverance, enduring energy and the capability to achieve positions of power and authority. Firm of character, you can also be inflexible and autocratic. You know how to shoulder responsibility and take charge of situations. Physically, you experience periodic weariness, coupled with occasional bouts of low vitality or delicate health. You may have a testing relationship with your father or dominant males.

### **Sun Square Neptune (2°44' S)**

You are highly sensitive and impressionable. You have a tendency to be easily swayed by others; are prone to seducing influences and susceptible to intoxicants and stimulants. While you may be inspired with the best of intentions and ideals, you often lack the power and motivation to bring them to realization. Equally, you may be prone to recycling periods of low vitality and physical weakness. There is a susceptibility to self-deception and seducing influences that can lead to scandals. Your father may be an unknown quantity to you, or even absent. Positively, you may have spiritual inclinations, coupled with a fascination for metaphysical or esoteric subjects. Your inner life is very active, and mystical or psychic experiences are not unfamiliar to you. You have compassion and an ability to feel and understand the needs of others with sympathy and empathy. You may be gifted with a measure of inspiration and creativity, which may express itself through the arts - especially music, painting, photography or drama.

## **Moon**

**The Moon describes your emotional nature, instinctual behavior and unconscious response patterns, and sense of home and family.**

### **Moon in Sagittarius**

You have a free and easy outlook on life, with a freedom-loving emotional nature. Being emotionally tied down is not your style. You are open and honest in your emotions. Your philosophies and ethics in life are instilled in early childhood and remain with you through life. You have a deep interest in higher learning and a strong curiosity about things, which may lead to long distance travel or tertiary education.

### **Moon in 1st House**

The face you show the world is that of an emotionally sensitive and receptive person. Emotionally, you are an open book and inclined to wear your feelings on your sleeve. Your moods impact upon those around you. However, because you tend to be guided by your feelings you can be inconsistent, changeable and moody. Professionally, you have a need to be in touch with others in your environment and may show talents in the public or catering sectors, or within the food industry.

### **Moon Sextile Mars (4°52' S)**

Your feelings and actions are in sync with each other: how you feel determines the way you act or react to situations. You are usually honest about your feelings and have little trouble expressing them. You enjoy keeping busy and initiating new projects and enterprises. Being quite bold and courageous, you will speak your mind and express yourself in a direct and no-nonsense manner in confrontational situations. Others know where they stand with you, as you're always prepared to 'lay your cards on the table'.

### **Moon Square Midheaven (6°24' S)**

Your highest aspirations are soul based and spiritually significant to you. You have the power to form supportive contacts in your vocation, especially with women. However, your career path is likely to be affected by work demands and family commitments encroaching upon one another.

## **Midheaven**

**The Midheaven describes your highest aspirations in life and means to self-fulfillment, your personal vocation, and your status as perceived by others.**

### **Midheaven in Virgo**

Your goals and aspirations are down-to-earth and practical. Your aim in life is to do the best you can at any task or activity. This is achieved through methodical procedure, attention to detail and efficient use of resources. Self-realization is attained by living a simple and uncomplicated life.

### **Midheaven Conjunct Mercury (4°16' A)**

For the most part, you are a thinker and a doer. You have the ability to advance vocationally through being clear about what you want to achieve and keeping abreast of developments in your field. You are well-suited to academic work, such as teaching or lecturing, but are equally capable as a communicator or business professional. Media work, acting or politics may appeal to you also. You are probably a good storyteller. Others value your advice because they know you keep yourself up to date and informed.

### **Midheaven Sextile Venus (4°54' A)**

You are a warm-hearted and loving individual and, in general, enjoy good relationships with your family and work colleagues. You have a unique sense of style and have quite individualistic fashion tastes and preferences. Status in your career is important to you, and vocational successes are likely in creative occupations or the arts, the beauty or fashion industries, or the public relations sectors.

### **Midheaven Sextile Pluto (7°53' S)**

You tend to view your career as your mission in life. You want to make your mark and to become a person of some significance or importance in the world. If other factors in your horoscope support it, you have the potential to gain a measure of fame or renown. At some point in your life, there is a possibility you will undergo a radical change in direction that may surprise both yourself and others. You have the capability to be a leader - in a specialized field - that others trust and feel comfortable enough with to support.

## **Mercury**

**Mercury describes your manner of expression, your powers of communication and intellectual reasoning, your ability to formulate and articulate ideas, and to make decisions.**

### **Mercury in Virgo**

You have an analytical and logical mind, with practical reasoning abilities. Naturally studious, you have the capability to acquire specialized skills. Others will recognize your areas of expertise. Your thinking is orderly and methodical. Precision is your forte. You have a talent for gathering and classifying information. You can also be critical and pedantic.

### **Mercury in 10th House**

Vocational matters are often at the fore-front of your mind. Your career successes are the result of careful planning and strategic thinking. You are professionally ambitious and desire professional recognition. You are suited to business, academic work, writing, journalism, politics and the communication industries. You have organizational skills, leadership capabilities and the ability to make executive decisions. You enjoy variety in your profession and may hold down more than one job, or seek a career that constantly tests your adaptability.

### **Mercury Sextile Venus (0°38' S)**

Your thoughts are more often than not on love and relationships. You need to share your ideas and affections with those who are close to you. You have a pleasant manner and easily interact with others. You enjoy social activity and are good company because of your sense of fun. You have a creative intellect and an eye for beauty and artistic design. You may also have talents as a speaker or writer.

### **Mercury Square Uranus (5°38' A)**

You are independently minded and intellectually flexible. You have original ideas, coupled with the capability to think laterally and progressively. You have reformatory views and are always prepared to challenge the status quo. Sharp-minded and astute, you comprehend things quickly. Your intuition is acute and reliable. You tend to be an intellectual leader, especially in the fields of science, mathematics or technology. In some cases, your views may be too radical, which can isolate you socially or make you appear eccentric or anarchistic. You can also be contradictory, easily distracted and prone to changeable thinking.

## **Venus**

**Venus describes your appreciation of beauty and the arts, your powers of attraction, and your capacity for close personal relationships and love affairs.**

### **Venus in Scorpio**

You have an all or nothing attitude when it comes to love. It is not unusual for you to experience the extremes of deep passion and cool indifference in romantic affairs. Difficulties in love can arise through emotional manipulation, power struggles or jealousy.

### **Venus in 12th House**

You enjoy quiet and solitude and occasional periods alone to recharge your emotional batteries. You can be shy and reserved in the expression of your intimate feelings and may harbor unspoken love yearnings. Equally, you may have secret admirers or become involved in clandestine love affairs. Be aware that indiscreet activity in regard to matters of the heart could result in scandal and embarrassment.

### **Venus Square Moon's North Node (2°06' S)**

In general, you have well-developed social skills, coupled with the ability to charm and win over others. You prefer the company of cultured and socially sophisticated people, and tend to cultivate friendships with creative and artistic people. Breakdowns in relationships are possible through disruptive or rude behavior.

## **Mars**

**Mars describes the way you act and assert yourself, your basic urges and desires, and your ability to achieve personal goals.**

### **Mars in Libra**

You have the urge to associate with others and to be socially active. Always preferring peace to discord, you dislike arguments between people and will try to restore harmony. You have an ability to see both sides of an issue, which can inhibit your ability to act effectively. As you are uncomfortable with conflict and aggression, you can fail to take decisive action when it's needed.

### **Mars in 11th House**

You are motivated to make friends and to join clubs or societies. Your friends tend to be boisterous, energetic, loud and argumentative personalities. Sparring and conflicts are likely between you and your friends. Also, you have to be careful with regard to the company you keep, as others can lead you into trouble. Consequently, some of your friendships are frequently tested and broken or deemed to be more demanding than they are worth.

### **Mars Square Jupiter (0°27' S)**

Your motivation in life is to live life to the max. You are ambitious for personal success and never back down from a challenge. In fact, the tougher something is the more determined you become. You usually manage to achieve whatever you set out to accomplish because quitting never enters your mind. You are a productive, energetic and resourceful person who has ability to organize your affairs well. If other factors in your chart support it, you have managerial and business abilities. At the very least, you are decisive and able to make decisions quickly. Also, you have a good sense of timing, especially when it comes to recognizing profitable opportunities. You are competitive, in a good-natured way, and most likely enjoy sports, adventurous games or various forms of physical exercise. You need to be aware that a 'might is right' attitude and cocky or arrogant behavior won't win you friends. There is the likelihood of philosophical differences with others.

### **Mars Square Saturn (2°40' S)**

This particular combination of planets is challenging to say the least. The enthusiastic and adventure seeking nature of Mars come up against the obstructive and restraining tendencies of Saturn. Hence, a key phrase for this aspect is 'restricted activity'. Traditionally, the uniting of Mars and Saturn makes for a troublesome pairing; however with self-awareness difficulties can be lessened. Saturn can tone down Mars' impatience and encourage disciplined action, the attainment of goals through concentrated or sustained effort and persistence. You are a hard worker who possesses endurance and the capability to work long and demanding hours. At times, progress in life can seem frustratingly slow; it sometimes feels as if you are 'driving with the hand brake on'. Negatively, you may find it difficult to manage anger and irritability. There is a risk of adopting a harsh outlook or of becoming resentful, vengeful and bitter. At approximately seven-year intervals, you are forced to contend with restrictions and periods of low physical energy.

### **Mars Square Neptune (0°47' S)**

The main challenge of this aspect is to discover how to channel your energies most effectively. This is difficult because Neptune tends to undermine Mars' ability to act by dissipating its power, or causing it to express itself in a chaotic or immoral way. Physically, the body's defenses can be weakened causing a susceptibility to infections and viruses. On a more uplifting note, this aspect is often found in the charts of spiritual aspirants who direct their energies towards the higher good. For creative people, this pairing can produce talents in music, visual arts, theater, film, photography or fashion. Physical exercise such as swimming, water sports, Yoga or Tai Chi may appeal to you.

## **Jupiter**

**Jupiter describes how you relate to the larger world beyond your personal self, how you expand in life, and experience higher learning, travel or religion.**

### **Jupiter in Cancer**

You have a strong attachment to your home and family. The creation of a secure and comfortable home for yourself and your loved ones is important to you. Your educational, moral and religious outlooks are established in early life. Financial assistance is often available through the family. You have a caring and protective nature, coupled with a genuine concern for the emotional needs of others.

### **Jupiter in 8th House**

You have a talent for dealing with other people's money and resources and may be very successful as a financial adviser/controller, tax consultant, banker, stockbroker or accountant. You may also benefit personally from legacies or inheritances. Your personal or professional partner may be wealthy, lucky with money or financially clever and resourceful.

### **Jupiter Opposition Saturn (2°12' S)**

In general, your life alternates between periods of optimism and pessimism and periods of financial abundance and financial hardship. It can sometimes seem that everything good that happens to you comes at a cost. Your challenge is to find the middle path between enjoying life and keeping it real. Occasionally, you experience feelings of dissatisfaction with your lot in life; however this can serve as a motivation to improve your situation. All of your personal successes - academic, financial or emotional - are hard won and gained through industry, perseverance and self-discipline. You have a good head for business because you understand the cycles of expansion and consolidation. Your philosophical outlooks tend to be orthodox and conservative.

### **Jupiter Opposition Neptune (0°20' S)**

You are a selfless and compassionate person who is receptive to the needs of others. Spiritual subjects interest you greatly and it is possible that you possess psychic ability. You have a great amount of imagination and inspiration, which you may effectively channel into creative expressions such as music, theater, dance, film or painting. You are essentially an idealist who sometimes sees the world through rose-tinted glasses. As a result, you can perceive situations to be quite different to what they are in reality. On a mundane level, you may have an enthusiasm for gambling and risk-taking; however it is impossible to tell if your speculations will succeed or fail - so you need to take care, especially if you cannot afford to lose.

### **Jupiter Trine Pluto (3°51' A)**

You can handle power responsibly. Others will generally respond favorably to being organized and led by you. The secret to your success with others is that you lead by example. You are motivated by the desire to improve yourself and the conditions of those around you.

## **Saturn**

**Saturn describes your experience of reality, your fears and inhibitions, where you are serious, and how you respond to society's rules.**

### **Saturn in Capricorn**

Your will is strong and unyielding. Ambitious for power, status and authority, you tend to measure your self-worth through how satisfied you are with your personal achievements. You are self-disciplined, practical, frugal and aware of your responsibilities.

### **Saturn in 2nd House**

Financial success and wealth comes through good old-fashioned hard work and effort. You find out from an early age that you get what you work for and that there are no free lunches. As a rule, you tend to be cautious and careful with regard to spending money and investing. Deep down, you have a fear of poverty, especially in later life and will take steps to make yourself as financially secure as possible. At times, you can be frugal and stingy.

### **Saturn Conjunct Uranus (6°10' S)**

This aspect happens only once every 46 years due to the slow orbital speeds of these two planets. Socially, it represents periods of violent disruption in the world and the sudden tearing down of established structures: consider, for example, the resulting break up of the Soviet Union following the most recent conjunction of Saturn and Uranus in 1988. On a personal level, you often feel tense and churned up inside, as you struggle between the urge to conform and the urge to assert your individuality. One side of you wants to be like everyone else while the other side cannot bear the thought of it. For your own peace of mind you need to find a balance between these conflicting urges. You are quite rebellious and will buck against anyone or anything that restricts your freedom. Also, when you feel the pressure for change building up within you, don't suppress it because you may cause yourself stress and even possible physical injury.

### **Saturn Conjunct Neptune (1°53' A)**

These two planets are almost polar opposites: Saturn represents reality and boundaries and Neptune represents that which is beyond reality and without boundaries. Having this aspect means you experience periodic struggles between pursuing your spiritual inclinations and meeting the demands of the material world. Physically, you are prone to re-cycling bouts of low vitality and illness. In spite of the challenges you encounter in life, you never waver in your desire to help others.

### **Saturn Sextile Pluto (6°03' A)**

Everything you achieve in life is as the result of sheer determination and effort. You have great powers of endurance and perseverance, coupled with a tenacious attitude and the self-discipline to see things through to their successful conclusion.

## **Uranus**

**Uranus a generational planet - describes areas of personal and peer group uniqueness, your intuitive awareness, and your ability to adapt to the new and sudden.**

### **Uranus in Capricorn**

You are inclined to rebel against, or reorganize, the established order of things. You are part of a generation that reforms business practices, government structures and national or global economies. You can make innovative use of whatever resources you have at hand.

### **Uranus in 2nd House**

You tend to have individual and original ways of earning (and spending) money. Your financial affairs are likely to be erratic at times and prone to sudden changes, for better or worse. Financial gains may come through the sciences and technological fields, electronics and inventions, or the utilization of an unusual or unique personal talent.

### **Uranus Sextile Moon's North Node (7°05' S)**

You either prefer the company of unusual and original people, or you come across to others as unconventional and eccentric yourself. You enjoy change and variety with regard to your associations and can be inclined to make and break contacts suddenly and unexpectedly. When meeting new people, you tend to assess their character intuitively and quickly.

# Neptune

**Neptune a generational planet - describes your personal and peer group experiences of spirituality, your powers of inspired fantasy and areas of illusion.**

## Neptune in Capricorn

You are inclined to hold idealistic or unrealistic views about big business, multi-nationalism and government policies. However, you are equally aware of the danger of placing indiscriminate faith in established structures because you recognize their underlying fragility. You are part of a generation that witnesses the dissolving of national boundaries, through such phenomena as the Internet and global communication.

## Neptune in 2nd House

Your attitude towards wealth and possessions can be idealistic or unrealistic. You either display keen instincts about financial opportunities, or experience disappointments or losses, through mismanagement or deception. Money can seem to flow through your fingers.

## Neptune Sextile Pluto (4°10' S)

Neptune and Pluto are the solar system's slowest moving planets; consequently aspects between them last for a great number of years and their effects are less personal than collective. Since 1940 and continuing until about 2040 they are in sextile aspect to each other. The major effect of this is to accentuate spiritual awareness and development en masse. You are part of a generation that is intent on exploring and refining the inner aspect of life and consciousness itself. You will be aware of a universal interest in metaphysical subjects, clairvoyance and psychical research.

# Pluto

**Pluto a generational planet - describes your personal and peer group experience of upheavals, forces beyond individual control, power and irreversible changes.**

## Pluto in Scorpio

You are a member of a generation who has the power to wield a powerful influence on others through the use or misuse of sexual energy. By nature, you are emotionally intense and prone to power struggles.

## Pluto in 12th House

At times, you can be quite closed and private, requiring seclusion in order to meditate and reflect upon your deepest concerns. Possibly, you may suffer bouts of fear or paranoia. You may have special abilities as an investigator, who specializes in unearthing hidden things or exposing corruption, especially within institutions.

## Moon's North Node

**The Moon's North Node a mathematical point - describes how you interact with others socially and the types of unions you form.**

### **Moon's North Node in Aquarius**

# The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

## The Qualities

### **43% Cardinal**

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

### **29% Fixed**

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

### **29% Mutable**

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

# The Elements

## 21% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are out-going and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive, demonstrative, bold and courageous. They can also be impatient and bossy, willful and reactive, especially when they face delays or obstructions in their path.

## 36% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hardworking and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

## 21% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more pro-active and self-determining you are:

The Air signs go for freedom of action and freedom of movement. Air signs need to be able to come and go at will. Their domain is the air we breathe; hence they are conduits for communication and the exchange of ideas. They are mentally alert and intellectually stimulating. Gregarious and sociable, Air signs like to be around other people. They are observant and perceptive, curious and inquisitive. They live totally in the here and now, and want to be in whatever is going on.

## 21% Water

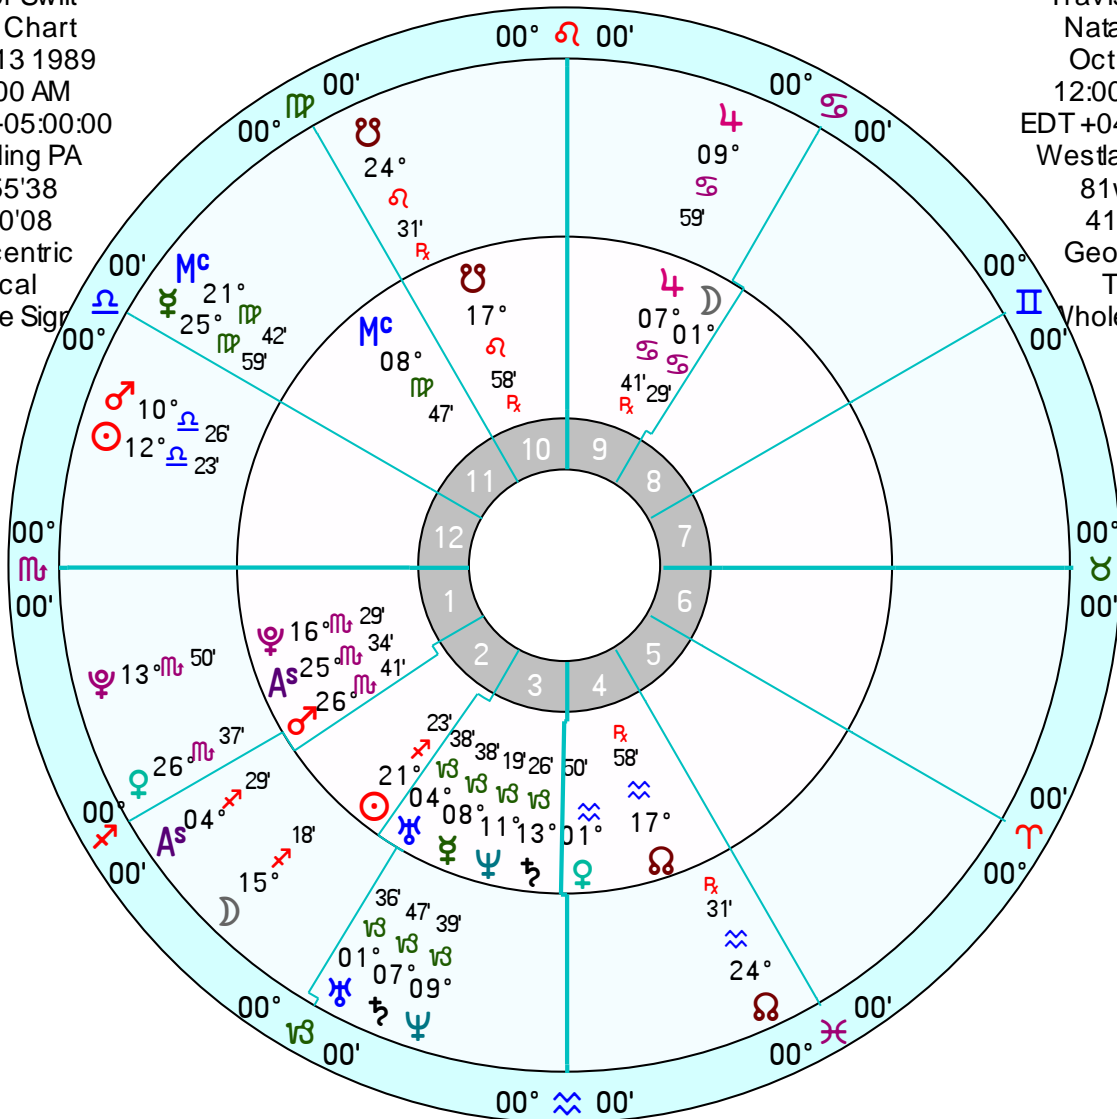

The Water signs are Cancer, Scorpio & Pisces. The more planets you have in the Water signs the more needful you are of emotional security:

People with a majority of planets in the Water signs are motivated by the need to gain security in their emotional lives. They are sensitive, deep, compassionate, imaginative and intuitive. Their inner lives and dream lives are very active. They are spiritually inclined and potentially psychic, with an ability to tune into others. Life is experienced as a mystical journey. They can also be hypersensitive, impressionable and emotionally needy.

### **Introduction**

Welcome to your astrology compatibility report.

This report is based on the astrology technique of Synastry, which compares the horoscopes of two people and interprets the correlations between them.

The first part of the report analyses the mix of Qualities and Elements between you to give a general indication of your modes of behaviour.

The second part looks at the placements of each other's planets in one another's natal houses. This indicates how you influence each other in the areas of life represented by the houses occupied by one another's planets.

The third part interprets the inter-aspects between your two charts. This shows how you relate to each other. Some of these interpretations are positive and easy and others are challenging.

Your Synastry report reveals your areas of harmony and compatibility as well as your areas of tension and conflict. Hold in mind that human relationships are complex and contradictions can occur in the interpretation.

## Qualities and Elements

### **Taylor's strongest Quality is Cardinal and Travis's strongest Quality is Cardinal**

Relationships between Cardinal personalities are dynamic and action orientated. Both of you have your own ideas about what can and needs to be done. As a pair you can achieve a lot together; however there will be struggles for dominance in the relationship. In this pairing we have the modern day 'power couple'.

### **Taylor's strongest Element is Earth and Travis's strongest Element is Earth**

Relationships between two Earth personalities are real, stable and desirous of constancy. Change is often resisted. Practical considerations dominate the inclinations of the heart. Material successes are likely, but emotional depth and imagination are lacking.

## Taylor's Houses

### Travis's Planets in your Houses

#### **His Sun is in your 12th House**

One of the reasons Travis is in your life is because he has a way of illuminating your vulnerabilities and fears. This is a good thing; because with his help you can see them for what they really are and deal with them. All it takes is a single candle to disperse the darkness.

#### **His Moon is in your 2nd House**

As you will find out Travis has a flexible attitude towards money; some days it's important to him, other days it's not. Get used to the idea of changeable financial circumstances when you are around him; it's part of the deal between you. Ultimately, you learn a great deal about material matters and possessions through him.

#### **His Mercury is in your 11th House**

In Travis you have someone who you can feel relaxed around and talk to as a friend. He understands where you are coming from because the foundation of your friendship is based on mutual interests and intellectual parity. You know how to have fun together and other people enjoy your company.

#### **His Venus is in your 1st House**

He has a harmonious influence upon you. He makes you feel happy and content in his presence. You love being with one another and also enjoy socialising together. He is affectionate and demonstrative and is likely to shower you with gifts or pamper you.

### **His Mars is in your 12th House**

Trust has got to be a given in this relationship - because if there is any sign that he cannot be trusted, you need to be concerned. Subversive or underhanded activity will weaken you and the relationship. The danger is that he can work against you in secret and you won't be aware of it until it's too late.

### **His Jupiter is in your 9th House**

He thinks like you - how good is that? In Travis, you have someone who shares similar philosophical and spiritual beliefs. You make plans together and have those deep and meaningful discussions that continue well into the night. It would be hard to think of a better travel or holiday companion, because you have similar interests and tastes for adventure.

### **His Saturn is in your 3rd House**

You may have difficulty expressing your thoughts and ideas to Travis. It is not because your communication skills are necessarily lacking; it is more likely that you don't quite know how to relate to each other. Unfortunately, he might not prove to be a hit with one or more of your relatives.

### **His Uranus is in your 3rd House**

He can say things to you that most people wouldn't get away with because you've come to expect just about anything from him. He has the ability to stimulate your mind and get you to look at things differently. He keeps you interested because he's not concerned with ordinary or mundane reality; he has the ability to think outside of the box and beyond the confines of his immediate surroundings.

### **His Neptune is in your 3rd House**

Communication between you isn't always as clear as it could be. Sometimes things that should be said just aren't and other times things that shouldn't be said are, which can lead to tragic misunderstandings. That aside, it is often the case that you understand each other intuitively.

### **His Pluto is in your 1st House**

He has the power to transform the way you see yourself and how you live your life. He empowers you and encourages you to look deeply into your psyche and think about the consequences of your attitudes and actions. Through him you feel compelled to confront yourself and acknowledge your shortcomings. There may be power struggles between you.

### **His Moon's North Node is in your 4th House**

Through his ideas and actions he teaches you the importance that family plays in your life and the consequences of past deeds.

### **His Ascendant is in your 2nd House**

He understands how important financial security is to you. If you are ever in need of his support or assistance he is there for you in person.

### **His Midheaven is in your 11th House**

You feel a personal connection to Travis. He is someone you call your friend. With your influence, your friends may help him to realise or achieve his personal or professional aspirations.

## **Travis's Houses**

### **Taylor's Planets in your Houses (based on Travis 12 noon birth time)**

#### **Her Sun is in your 1st House**

Taylor is a powerful and vital force in your life. She encourages you to be your own person and to develop your fullest potential. She recognises the promise you have within you and wants nothing more than to see and help you reach it. She may, at times, come across as insistent or over-bearing, but her intentions are generally well-meant and heartfelt.

#### **Her Moon is in your 8th House**

When it comes to managing your joint finances Taylor's instincts should always be heeded. If she has a good or a bad feeling about anything that could change your financial security, be sure to look into it more deeply. You will probably have arguments over money; however it is always better to be sure than sorry.

#### **Her Mercury is in your 2nd House**

You and Taylor talk a lot about financial and business matters. No doubt, she has many ideas on how you can spend or invest your money; just make sure that you are confident she knows what she's talking about. If you do trust her abilities she can help you make good financial decisions.

#### **Her Venus is in your 3rd House**

You love talking to each other and enjoy sharing intimate discussions. Good communication is what makes this relationship work. She can open your mind up to art and literature. Your social life is likely to be active and stimulating, with many invitations extended to you as a couple.

#### **Her Mars is in your 12th House**

Trust has got to be a given in this relationship - because if there is any sign that she cannot be trusted, you need to be concerned. Subversive or underhanded activity will weaken you and the relationship. The danger is that she can work against you in secret and you won't be aware of it until it's too late.

### **Her Jupiter is in your 8th House**

This is a good combination for business related activity. You may borrow money from one another or lend it to each other. Through Taylor's efforts and abilities there is the possibility that you can prosper together and even gain a measure of wealth.

### **Her Saturn is in your 2nd House**

Money can be a problem in your relationship with Taylor. She may want to control your spending or conversely cause you financial difficulties through bad decisions or advice. Even though she may have your best interests at heart, she is not the first person you should choose to manage your finances.

### **Her Uranus is in your 2nd House**

Get used to the idea of instability in your financial life with Taylor around. Her attitude towards money may give you reason for concern, particularly if you are a security-conscious sort of person. She is unlikely to place the same value on possessions or wealth as you and may have off-beat or unusual ways of earning a living.

### **Her Neptune is in your 2nd House**

It is probably not a good idea to have financial arrangements with her unless you're not too hung up about money in general. She tends to be a bit of a dreamer and schemer when it comes to monetary matters. She may or may not have deceptive inclinations, but she can be instrumental in undermining your material security.

### **Her Pluto is in your 12th House**

You need to be careful in your dealings with Taylor; she may not be exactly who she appears to be. There is some danger that she can work behind your back and hurt you in some way. Whatever you do, don't cross her because she can make a powerful enemy.

### **Her Moon's North Node is in your 3rd House**

Through her ideas and actions she teaches you the importance of clear and unequivocal communication.

### **Her Ascendant is in your 12th House**

If there is anyone who can get you to front up to your innermost fears and inhibitions it is Taylor. She has a gift for asking you the right questions and offering solutions to your concerns. She is a good listener.

### **Her Midheaven is in your 10th House**

You have similar aims and aspirations to one another. She understands what's important to you and likewise, you know how to help her achieve her goals.

## Aspects

### **Taylor's Sun is Square Travis's Mercury 4°36' A**

This is a testing combination within a relationship. A challenging aspect between the Sun and Mercury makes for tense communications and misunderstandings. You tend to agree on some things and strongly disagree on others. As a team, you come across as two people who have quite different outlooks and opinions about things. One of you may tend to dominate the thinking of the other or take the lead in discussions and decision-making.

### **Taylor's Sun is Sextile Travis's Moon's North Node 3°08' A**

This astrological pairing indicates that your relationship is very significant to both of you. Your union seems to have been pre-destined. As a couple you may know important and influential people.

### **Taylor's Sun is Square Travis's Midheaven 0°19' S**

A dynamic aspect between the Sun and the Midheaven is significant. Together, you have the power to achieve a lot in life. The aspirations of one partner are assisted in their realisation by the power and organisational skills of the other. Together you make a formidable team. You encourage one another and support each other in your individual ambitions.

### **Taylor's Moon is Square Travis's Mercury 5°31' S**

This can be a testing combination in a relationship. There are communication difficulties caused by a lack of sensitivity or understanding. The problem lies in the tendency of the more rationally inclined one of you to over-analyse the more emotional one's feelings rather than trying to relate to them instinctively. In turn, the more emotional partner is disinclined to approach issues affecting the relationship calmly and rationally.

### **Taylor's Moon is Opposition Travis's Uranus 0°07' A**

One - or both - of you knew from your first contact that something would develop between you. Intuition plays a strong part in your relationship. You hold a fascination for one another and delight in being unpredictable with each other. Your living arrangements are likely to be unconventional and you enjoy keeping others guessing about the nature of your relationship. Both of you value personal freedom and you know when to give each other time out or breathing space.

### **Travis's Sun is Square Taylor's Mercury 3°45' A**

This is a testing combination within a relationship. A challenging aspect between the Sun and Mercury makes for tense communications and misunderstandings. You tend to agree on some things and strongly disagree on others. As a team, you come across as two people who have quite different outlooks and opinions about things. One of you may tend to dominate the thinking of the other or take the lead in discussions and decision-making.

### **Taylor's Mercury is Square Travis's Mars 1°48' A**

You have a particularly fiery dynamic between you. Heated arguments and quarrels are commonplace. You tend to get impatient with one another and can be quite cutting in your remarks. Also, you can both be inclined to sarcasm and colourful language. You are generally direct in your communications to each other, but there can be a danger of dishonesty and lying.

### **Taylor's Mercury is Opposition Travis's Jupiter 1°21' A**

Whilst communication between you is generally positive and constructive there are going to be times when you disagree about things. The important thing is to be honest with each other. Keep an open mind about each other's beliefs and don't try to force your own on to one another. Take care with important joint decisions, especially if money is involved; double check documents and contracts.

### **Taylor's Mercury is Conjunct Travis's Saturn 0°51' S**

There are potential communication difficulties between you and they won't go away by ignoring them. The biggest problems are caused by uncommunicativeness, nagging and unfair criticism. You need to make the effort to listen to one another and to respect each other's ideas and points of view. Otherwise, you'll become frustrated with one another and eventually stop talking and start leading separate lives.

### **Taylor's Mercury is Conjunct Travis's Neptune 1°02' A**

You are keenly aware of each other and understand one another at a profound level. You pick up on each other's thoughts intuitively and seem to know what the other is thinking. There may even be the power of telepathy between you. Metaphysical and spiritual subjects interest you both. There is, however, some risk that you may deceive or lie to one another - intentionally or unintentionally.

### **Taylor's Mercury is Sextile Travis's Pluto 5°12' A**

Through the process of mutual self-examination you have the power to transform your thinking and understanding of yourselves. As a team, you are well-suited to investigative and research work. You could even publish something together.

### **Travis's Mercury is Trine Taylor's Venus 5°51' S**

Communication between you is generally pleasant and harmonious. You are courteous to one another and always prepared to listen to each other's ideas and points of view. Even when you don't agree on things you don't tend to let it bother you or get in the way of your feelings for one another.

### **Taylor's Venus is Sextile Travis's Venus 5°13' A**

You are warm-hearted and cordial towards each other and you relate to one another easily and naturally. You are attracted to each other and share similar desires and aesthetic tastes.

**Taylor's Venus is Sextile Travis's Ascendant 2°39' S**

You find it easy being affectionate with each other and it is obvious that you love one another deeply. You tend to like the same things in others and share similar artistic and cultural interests. You appear happy and content with each other.

**Travis's Mercury is Sextile Taylor's Mars 0°42' S**

When you decide to do something together you go ahead and make it happen; you are people of your word, who walk your talk. Communications between you are lively and stimulating. You certainly don't agree on everything, but you have the courage to speak your mind to one another. You present a united front to other people and others know where they stand with you.

**Travis's Venus is Conjunct Taylor's Mars 0°04' A**

This is an ideal combination for love and marriage because it ensures physical attraction and procreative power. There is great passion between you and ongoing sexual desire. You respond well to each other's needs and romantic advances. It is important that you keep the home fires burning, however, as there may be some danger of infidelity.

**Taylor's Mars is Square Travis's Moon's North Node 2°10' S**

You have a strong desire to cooperate with each other. However, for this to succeed you need to discourage competition between you or any inclinations one partner may have to try and dominate the other. Otherwise it defeats the purpose of teamwork.

**Taylor's Mars is Sextile Travis's Midheaven 4°58' A**

You take an active interest in each other's ambitions and readily lend your support to helping one another realise them. Your work and domestic environments are energetic and lively.

**Travis's Sun is Square Taylor's Jupiter 4°42' S**

Even though this is a challenging aspect, its influence on a relationship is fundamentally positive and beneficial. As a couple, you can advance socially and materially. Negatively, there may be some problems with wastefulness and extravagance on the part of one partner. Philosophical differences are also likely.

**Travis's Mars is Square Taylor's Jupiter 2°45' S**

You are both determined to live your lives to the full and will do what ever it takes to achieve your personal and combined ambitions. When working together on a project, you push and encourage one another and fire each other with enthusiasm. However, there can be difficulties between you caused by differences of outlook or disagreements on how to do things. Conflicts over money or expenditure are also possible.

**Taylor's Jupiter is Conjunct Travis's Jupiter 2°18' S**

You are good friends and feel comfortable in each other's company. You have similar outlooks on life and understand each other well. You support one another's ideas and viewpoints, and rarely disagree about things.

**Taylor's Jupiter is Opposition Travis's Saturn 0°06' S**

This can be a problem area in your relationship. You have quite different philosophical outlooks and attitudes about money. One of you tends to be financially conservative, while the other can be quite the spendthrift. This leads to arguments and mutual feelings of frustration. Travelling together is not without its ups and downs.

**Taylor's Jupiter is Opposition Travis's Neptune 1°59' S**

While you both share an interest in religious and spiritual matters you may be inclined to hold differing philosophical outlooks; or you may disagree on how to interpret various teachings. This, however, is not a big problem because you have tolerance for each other's views. On a more mundane level, there may be problems between you caused by financial irresponsibility such as reckless speculation or gambling.

**Travis's Sun is Square Taylor's Saturn 1°03' A**

This is a difficult combination for any relationship to endure. It is definitely possible for this partnership to work, but it is going to take a lot of effort on the part of both individuals. There are issues of control and domination to contend with; with one of you trying to restrict the freedom of the other. Should this be allowed to happen it will eventually lead to separation. This outcome is avoidable if you respect each other's goals in life and give yourselves the space and freedom to pursue them. It is important to appreciate each other's personalities and to avoid criticizing or putting one another down.

**Travis's Mars is Square Taylor's Saturn 3°00' A**

The difficulties in this planetary combination are not to be taken lightly. You both need to be very certain that you have the individual strength to contend with the inherent challenges of this relationship. One of you tends to dampen the desires and restrict the movement of the other. Over time, this causes resentment and suppressed anger between you. There is a danger of violence or physical injury.

**Travis's Jupiter is Opposition Taylor's Saturn 3°27' S**

This can be a problem area in your relationship. You have quite different philosophical outlooks and attitudes about money. One of you tends to be financially conservative, while the other can be quite the spendthrift. This leads to arguments and mutual feelings of frustration. Travelling together is not without its ups and downs.

**Taylor's Saturn is Conjunct Travis's Saturn 5°40' S**

You have much to learn and gain from one another in terms of life-experience and maturity. You feel a sense of responsibility for each other and know one another's needs and boundaries. You both understand your individual responsibilities and tend to live up to them. This aspect can have a stabilising influence on a relationship; however if either of you feel unhappy or restricted it can lead to estrangement or separation.

**Taylor's Saturn is Conjunct Travis's Neptune 3°47' S**

These two planets are almost polar opposites: Saturn represents reality and boundaries and Neptune represents that which is beyond reality and without boundaries. Having this aspect means the boundaries between you are often blurred. You find it hard to meet one another's spiritual and material needs. This causes deep feelings of dissatisfaction and insecurity. There may be health issues to contend with.

**Taylor's Saturn is Sextile Travis's Pluto 0°23' A**

This combination forces each of you to confront your individual fears and inhibitions. The test, however, is not to be judgemental of each other. Be truthful with one another, but also fair and understanding; then there will be real growth between you.

**Travis's Mars is Square Taylor's Uranus 5°48' S**

You have an unpredictable and volatile dynamic between you. Arguments and quarrels erupt between you with regular frequency; the slightest little thing can set you both off. You readily provoke each other; sometimes just to get a reaction. The freedom to do your own thing is important to you both and it won't be compromised by either of you. If it ever is, you become agitated and irritated with one another. Occasional periods apart are recommended.

**Travis's Jupiter is Opposition Taylor's Uranus 5°21' S**

You like to keep each other guessing and alert to any eventuality. The nature of this aspect is to keep you both on your toes; you can never be sure of what's around the corner. You enjoy surprising each other and being spontaneous. Your shared philosophy is "live for the moment". Difficulties can arise between you due to extravagance or financial mismanagement.

**Travis's Saturn is Conjunct Taylor's Uranus 3°08' A**

You can easily rub each other up the wrong way. Tensions in the relationship can happen when one of you upsets the routines of the other. Furthermore, there is a risk of friction between you if one feels restricted by the other or unable to act independently and spontaneously.

**Taylor's Uranus is Conjunct Travis's Uranus 3°02' S**

This is a generational aspect. You share similar attitudes towards collective issues and changes in your personal lives and the world in general.

**Taylor's Uranus is Conjunct Travis's Neptune 5°01' A**

You are spiritually and psychically attuned to each other and understand one another in a unique and special way.

### **Travis's Sun is Square Taylor's Neptune 1°04' S**

The main concern of this aspect, from a relationship perspective, is do you trust one another and are you honest with each other? There can be a tendency to evade important issues within your relationship or to do things behind each other's backs. There can also be problems with intoxicants and difficulties caused by deception or unreliability. Positively, there is a strong inner connection between you and you are able to pick up one on another intuitively. Deep down, you both know what the other needs and expects of each other.

### **Travis's Mars is Square Taylor's Neptune 0°53' A**

The main challenge you both face from this aspect is how best to channel your combined energies. Positively, you can encourage each other in spiritual or creative pursuits. Negatively, there may be the tendency to undermine one another's self-confidence or to lead each other astray. Alcohol or drug abuse within the relationship could be a problem and a source of misunderstandings or confusion between you.

### **Travis's Jupiter is Opposition Taylor's Neptune 1°20' A**

While you both share an interest in religious and spiritual matters you may be inclined to hold differing philosophical outlooks; or you may disagree on how to interpret various teachings. This, however, is not a big problem because you have tolerance for each other's views. On a more mundane level, there may be problems between you caused by financial irresponsibility such as reckless speculation or gambling.

### **Travis's Saturn is Conjunct Taylor's Neptune 3°33' A**

These two planets are almost polar opposites: Saturn represents reality and boundaries and Neptune represents that which is beyond reality and without boundaries. Having this aspect means the boundaries between you are often blurred. You find it hard to meet one another's spiritual and material needs. This causes deep feelings of dissatisfaction and insecurity. There may be health issues to contend with.

### **Taylor's Neptune is Conjunct Travis's Neptune 1°40' S**

This is a generational aspect. You share similar attitudes towards collective issues and spiritual matters in your personal lives and the world in general.

### **Taylor's Neptune is Sextile Travis's Pluto 2°30' A**

This is a generational aspect which you have in common with others of your age group. You share similar attitudes towards collective issues and spiritual matters in your personal lives and the world in general.

### **Taylor's Pluto is Conjunct Travis's Pluto 2°40' A**

Interpretation for this topic has not been created yet.

**Taylor's Pluto is Sextile Travis's Midheaven 5°13' S**

**Travis's Sun is Trine Taylor's Moon's North Node 5°35' A**

This astrological pairing indicates that your relationship is very significant to both of you. Your union seems to have been pre-destined. As a couple you may know important and influential people.

**Travis's Moon is Sextile Taylor's Moon's North Node 2°40' A**
