With LUFA that is the local league of American Football we take a seat on the Disciplinary Commission and presented our flag football team, Leones FCA, and we thought about workshops with brothers from USA, Ecuador and Argentina

We have made allies with local churches and one from California, God in Christ, that is going to settle on our city and has been missioning in deprived neighborhoods, with the objective of opening our FCA Sports School.

With some missionaries of the JUCUM we have been performing activities in the box school Maracana and the sunday school of the church God and King.

We have done an ally with the Softball Club Repecho y presented to the coaches the 3D course with the presence of Mark Hull and collect funds for our ministry.

PRAAYER REQUESTS

We already have performed all the formalities to have our ONG legally recognized and we have a directory for it. The only thing that is left is a to open a bank account for it.

We are about to sign the agreement with FCA so we are working on god's will trough the sports ministry.
