

FAWSSIT™

PORTABLE SHOWERS

Aging at home

A shower for every body.

Your decision to care for your loved one at home should not depend on requiring expensive bathroom remodeling or compromising bathing safety.

We believe that everyone deserves a refreshing shower. Mobility challenges arise for a variety of reasons, and they can make a daily shower for your loved one difficult to perform.

FAWSSit™ Portable Showers make caring for your family & aging at home easier and more affordable.

Quick and easy setup, in under 5 minutes.

Patient stays in a wheelchair, no lifts or transfer required.

Costs a fraction of having to remodel your bathroom.

Showers come fully assembled and fold flat for storage.

No special plumbing or electrical setup needed.

Why FAWSSit Showers Are a Game-Changer: Hear from Our Customers

Wow what a difference to be able to take a shower again! Since my accident getting up and down the stairs is a chore to say the least, with this shower it's nice because we can fold it and put it next to the folding table once I'm done. Thank You FAWSSit for a great idea.

Peggy

Aging at home isn't just about staying in place; it's about thriving in a familiar and supportive environment. By making accommodations such as FAWSSit™ showers, we can help seniors overcome common obstacles and focus on what matters most: enjoying their golden years with health, safety, and comfort.

My wife has ALS and can no longer climb stairs to get to our main bathroom. Purchased one of these showers to use on the main floor. It is awesome; we love it and the quality is fantastic. Dealing with Hans at FAWSSit was incredible - I have never had customer service like what he provided. Would 100% recommend these showers.

Rob W

For many seniors, remaining in their own home as they age is deeply tied to their sense of independence, comfort and emotional well being. Familiar surroundings provide not only peace of mind but also invaluable connections to a lifetime of memories. However, aging at home comes with its challenges, including accessibility and safety concerns.

I have been using my FAWSSit roll in shower for about a year now. I live in a small inaccessible studio apartment, as I was not in a wheelchair when I moved in. Due to housing shortages there are no accessible options elsewhere. The shower/tub is inaccessible. The FAWSSit has allowed me to shower again! My caregiver is able to set up and break down the shower in the main living area very easily. It's been a game changer!

Stephanie

We've been using the FAWSSit portable shower and it's exactly what we hoped for—safe, practical, and easy to use. FAWSSit has been a game-changer for us. Setup is straightforward and very easy.

Overall it's been a dignity-preserving solution that works for my mother who no longer has the stress of getting into the tub with a transfer bench which is cumbersome for someone with mobility issues. The best part is the customer service, they are extremely responsive and accommodating!

Vielka O

LEARN MORE

Why FAWSsit™ Showers

Remodeling a bathroom for accessibility isn't always possible, posing challenges for aging at home. The FAWSsit™ Shower is a practical solution. Unlike prolonged sponge bathing, which can lead to skin issues and infections, it provides a private, refreshing cleanse. Designed to maintain independence and dignity, the FAWSsit™ Shower offers a safe, comfortable experience without the need for lifts or transfers, ensuring a thorough, rejuvenating clean while preserving health and self-esteem.

Users can simply be rolled in, enjoy a warm and safe shower, and be rolled out, remaining in their wheelchairs throughout. When not in use, the showers fold flat, occupying minimal space. Delivered fully assembled, there is no need for tools, remodeling, or special training. FAWSsit™ ensures a safe and convenient way for individuals to be cared for and age at home.

FAWSsit™ Showers are backed by a 5-year limited warranty. They feature a sturdy metal frame, a variable spray handheld showerhead, and a custom wet/dry pump that drains 3.5 gallons per minute. Choose from 7 models for the perfect fit. Our customer service team is ready to assist you in finding your ideal FAWSsit™ Shower.

“

The shower/tub in my apartment is inaccessible. The FAWSSit™ has allowed me to shower again! My caregiver is able to set it up and break down in the main living area very easily.

”

No More Sponge Baths!

Sponge baths cannot provide the thorough skin care that running water does. For complete skin health, use a FAWSSit™ Shower to wash away dead skin and excess oils more effectively.

Don't Mistake Portable for Temporary.

A FAWSSit™ Shower, while easy to store away due to the foldable design, provides the benefits of a traditional built in shower. FAWSSit™ Showers are built with high quality materials, ensuring durability and longevity of use.

Don't be Limited by Circumstances.

When an accessible bathroom remodel is not feasible due to high costs or other circumstances, FAWSSit™ provides an affordable, convenient solution. The FAWSSit™ Shower comes fully assembled for immediate use.

Why Wait for Remodels?

The FAWSSit™ Shower ships fully assembled within 2 days of placing your order and usually arrives within 5 business days. Setup time, on average, is less than 5 minutes. Say goodbye to the long waits associated with remodeling.

A Great Bathing Solution.

The S2000 is a great solution for those who find that traditional bathing facilities are difficult or impossible to use, and who may not be able to remodel their bathroom for accessibility.

About the S2000

The S2000 Standard FAWSSit™ Shower is the original product Care Giver Support Product, LLC invented. The S2000 model is for individuals who use a standard wheelchair without a footrest or a shower bench. The S2000 Shower folds flat to less than 8 inches in depth and weighs less than 30 pounds.

The S2000 is perfect for renters, seniors, hospice patients and individuals with almost any type of permanent or temporary disability for whom traditional showering or bathing is no longer safe or possible.

“

Great product!
Dad can no longer climb stairs to get to the shower. So we bought the FAWSSit™ Shower. Works great and is simple to setup.

Custom drain wand

White vinyl germicide embedded privacy shower curtain

More Leg Room

The SS4040 has emerged as our **most popular model** with 6 inches of extra room to stretch your legs and enjoy a shower in spacious comfort. It also allows for more access by caregivers to assist in bathing if needed.

About the SS4040

The SS4040 Super Standard FAWSSit™ Shower is a perfect fit for individuals in standard-sized wheelchairs needing extra depth for shower chair foot extensions. Ideal for those who struggle with traditional bathing facilities and cannot remodel their bathrooms for accessibility, this solution offers a seamless and accommodating shower experience without the need for extensive modifications.

A godsend to me for my mom who is not able to get her bath chair into either of the showers in our home. With this I am able to hook it to a faucet and bathe her. Without it she would have been doomed to bed baths or we would have been remodeling a bathroom as she is not able to stand at all. With this I just set it up and wheel her in her bath chair into it, turn the pump on put drain hose in (I use bathtub) to drain water out as I bathe her and I have a happy, clean mom.

Budget-Friendly Bariatric Bathroom Alternative

About the B5000

The B5000 Bariatric FAWSSit™ Shower is for larger individuals who require an oversized shower wheelchair and shower. Reduced height allows for easier reach if assistance is needed for bathing. It is a fraction of the cost for a Bariatric accessible bathroom remodel.

The B5000 is the perfect solution for those who find that traditional bathing facilities are difficult or impossible to use, and who may not be able to do remodeling of the bathroom to allow for full accessibility.

“

We used to get up at 6:00 am so I could shower my husband in the women's locker room at the gym in our Condo. Now I can shower him any time of the day.

FAWSSIT™
PORTABLE SHOWERS

Overcome Obstacles.

About the Tall Series

The Tall Series of showers are the perfect solution for those who find it difficult to reach the upstairs bathroom or find it daunting to climb into the tub to take a shower.

The Tall Shower allows loved ones to keep their independence and dignity by continuing to shower on their own in their own homes. Plus, it is a fraction of the cost to remodel.

The Tall Shower is preferred by individuals who are still able to stand to shower, or those in a wheelchair who prefer the appearance of a regular shower. It comes in 3 sizes to fit any body type.

“

My Dad can't do stairs and no full bath downstairs; the portable shower has made it possible for him to stay in his own home more comfortably. I was pleasantly surprised with the quality of the product. Everything is top quality and well made. Thank you Fawssit!

Pump

Each model is equipped with a custom **WET/DRY PUMP** that swiftly removes shower water from the drainage pan.

Drainage Wand

Our custom **DRAINAGE WAND** assists the pump in efficiently removing water from the drain pan.

Removable Pump Filter

To protect the pump from waste water debris, we have installed a fine mesh **REMOVABLE FILTER** in front of the pump water inlet. (not available for R3000)

Front Wheelchair Gate

Each model has a **FRONT GATE** that lifts to allow for easy wheelchair access.

Privacy Curtain

Each model is equipped with a 360° wrap-around **SHOWER CURTAIN** for spillage prevention. Made from "6g Parquet Non-P Vinyl" with reinforced nickle-plated brass (rust resistant) grommets.

Folds Flat

Each model **FOLDS FLAT** to between 8" and 12" (depending on the model) for easy storage and convenient travel.
