

HOW TO INTRODUCE YOUR NEW DOG TO YOUR HOME AND PETS

Welcome to your new adventure with your furry friend! Now read this guide to help ensure a smooth start:

1. New Sibling Introductions:

- Let's skip the front door for introductions; it's too territorial.
- A long walk calms everyone, making for happy hellos.
- Meet in a neutral place, keeping leashes relaxed. Make it treat time!
- Inside, let kitty roam while doggo explores on leash—scent swaps and treats make new friends.

2. Potty Training Tips:

- Keep your pal close on a leash indoors at first.
- Choose their outdoor "loo" and be patient—stand by and wait for the magic.
- Celebrate successful bathroom breaks with a party of praise!

3. Creating Bonds:

- Forget punishment; trust is everything.
- Stay close to each other; it's bonding magic.
- Hand-feed meals to grow love.
- Be patient with eating habits; new places can mean small appetites.

4. Leash Walking Like a Pro:

- Practice indoors with a loose leash.
- Follow your doggo around, leading with treats and a happy voice.
- Going for a potty walk? Let your dog lead, but stop for tight leashes.

5. Guidance on Chewing:

- Exercise first, then tether time.
- Offer a buffet of chew-approved toys.
- Tethering prevents mischief as you guide them to the right chewables.
- Engaging food puzzles can work wonders, especially with your scent nearby.

May these tips help you both enjoy the journey of growing together with plenty of tail wags and purrs! 🐾
