

THE INTERNATIONAL REGISTER OF FETAL MORPHOLOGISTS

Applicant feedback form

Name: Alexandra Faivre

Company name: Charles River Lyon Safety Assessment

Assessment type/Date: Rabbit external and fresh visceral 14 December 2018

Overall did you find the assessment easy or difficult?	Relatively Easy.
Were there any parts of the assessment that 'worked' better than others?	More comfortable with the practical aspect because the quality of some of the photos of malformations is not very good.
Were the questions clear enough?	Yes.
Did the protocol explain clearly what was expected of you in the assessment?	Yes.
Did you receive sufficient information prior to the assessment/ was the supporting paperwork clear and informative? (e.g. application form)	Yes.
Was the format of the assessment explained clearly to you/ and in a logical sequence? (on the day)	Yes.
Could anything have been done to improve the format/content of the assessment?	No.
Based on your experience would you recommend the assessment to your colleagues?	Yes.
How did this assessment compare to previous assessments (if applicable)	Not applicable.
Any other comments	Good experience.

Thanks!

Name: Helene Bonnamour

Company name: Charles River Lyon Safety Assessment

Assessment type/Date: Rabbit external and fresh visceral 13 December 2018

Overall did you find the assessment easy or difficult?	Quite difficult.
Were there any parts of the assessment that 'worked' better than others?	No.
Were the questions clear enough?	Yes.
Did the protocol explain clearly what was expected of you in the assessment?	Yes.
Did you receive sufficient information prior to the assessment/ was the supporting paperwork clear and informative? (e.g. application form)	Yes.
Was the format of the assessment explained clearly to you/ and in a logical sequence? (on the day)	Yes.
Could anything have been done to improve the format/content of the assessment?	No.
Based on your experience would you recommend the assessment to your colleagues?	Yes.
How did this assessment compare to previous assessments (if applicable)	Fewer question during the practical part but more photos to discuss.
Any other comments	No.

Thanks!

Applicant feedback form

Name: Sylvie Bigillon

Company name: Charles River Lyon Safety Assessment

Assessment type/Date: Rabbit external and fresh visceral 14 December 2018

Overall did you find the assessment easy or difficult?	Quite easy.
Were there any parts of the assessment that 'worked' better than others?	The photos are not always easy.
Were the questions clear enough?	Yes
Did the protocol explain clearly what was expected of you in the assessment?	Yes
Did you receive sufficient information prior to the assessment/ was the supporting paperwork clear and informative? (e.g. application form)	Yes.
Was the format of the assessment explained clearly to you/ and in a logical sequence? (on the day)	Yes
Could anything have been done to improve the format/content of the assessment?	No.
Based on your experience would you recommend the assessment to your colleagues?	Yes.
How did this assessment compare to previous assessments (if applicable)	I find examinations on the rabbit easier than the rat.
Any other comments	No.

Thanks!
