UPDATE V2

Additional Shawbury storage movements by Mike Bursell.

SUMMARY

During 1999 19[R]Sqn moved to the 74[R]Sqn flightline or 'Seahawk' as known locally on the beach/southern side of the base. Additionally, 19 relinquished its QFI training role to 208[R]Sqn which in turn moved to behind the ATC Tower or as known locally 'Sparrowhawk' line. The former 208 line known as 'Goshawk' in front of the main gate became VASF/ASP.1. The unit establishment was increased from 71 to 80 Hawk aircraft.

No display pilot.
