Client Review

A fabulous decking job which was over the top of an existing old pond. A great job completed by the team. 2 friendly guys and top workers Daz and Lee worked really hard for 2 weeks. They really bought my vision to life, we couldn't be more happier. Great experience from the start of the process with Andy, discussing what we wanted and drawing up the plans to completing the project. A top job, will definitely have them back once I come up with another project
