

# BREADtrust Newsletter 2026 - Pakistan

At BREADtrust we are passionate about expanding the Kingdom of God, by sharing resources with the poor, in nations around the world. In recent years, Jamie and Joanne Muir have become trustees of our charity and have developed connections with Jeremiah, who leads a network of churches in Pakistan (PFK). As the relationship grows, we are seeking to partner with the churches in projects that serve the poor in the local area.

PFK churches, in conjunction with BREADtrust, have plans to build a school within the grounds of their church building, in the enclave of Jamestown, Rawalpindi. The vision is to break the 20-year cycle of educational poverty that limits the economic, educational and social opportunities of local children.

## Project aims

- Renovate toilets
- Repair church hall
- Construct a second storey above church hall, to house a modern school
