

Mt. Carmel Cemetery

Mt. Carmel Cemetery is located a short distance west of Morris at 2330 Old Stage Road.

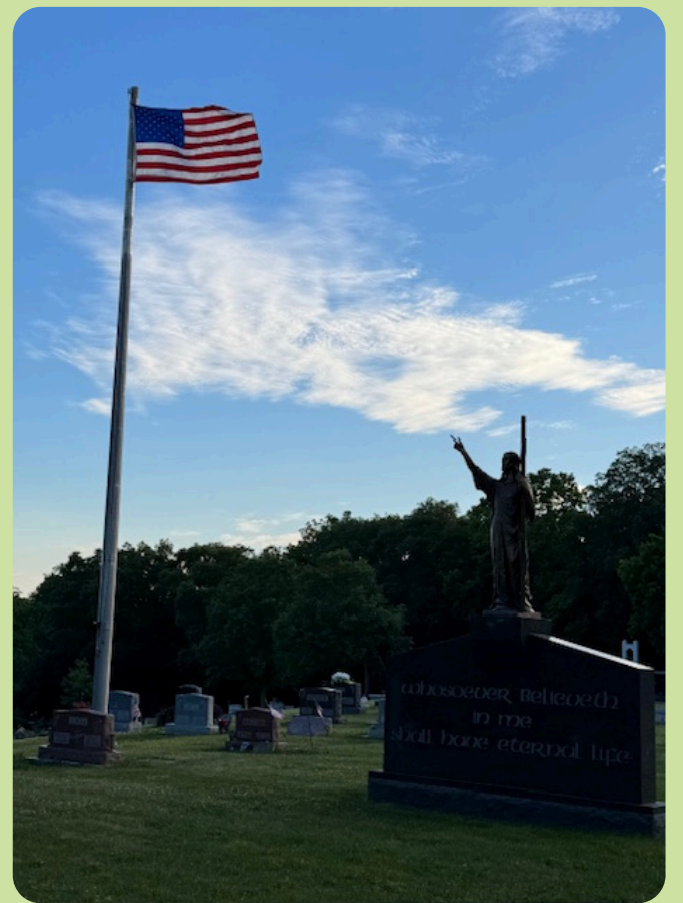

In Ground Burial

Mt. Carmel Cemetery offers graves and lots for those who choose in ground burial. Graves allow for a full burial or for the burial of cremains. The current price of a grave is \$650 and the price of a lot (two adjacent graves) is \$1300. Prices are subject to change. An additional fee is required for opening and closing a grave at the time of burial.

Cremation

Since 1963, the Catholic Church has allowed the practice of cremation. Because the human body has an eternal destiny, the Church requires that the cremated remains of a body be buried or entombed after the funeral in the same timely manner as a body. Many people are now choosing cremation as an option for burial. Cremains may be interred in either the ground or in a columbarium.

Columbarium

Mt. Carmel Cemetery offers inurnment in either of two columbaria. These are small buildings that each have 72 niches. A niche has enough space for two urns. The columbaria at Mt. Carmel are located at the east entrance of the cemetery toward the top of the hill. The price of a niche is \$2700. Included in the price is the engraving on the door. The price of a niche is also subject to change.
