

What Is Your Quality System Really Costing You?

Most QMS weaknesses don't show up as 'Quality issues' — they show up as **lost margin, delayed revenue, and management time** consumed by **avoidable problems**.

Datod Consulting helps organisations make Quality work **for** the business, not **against** it.

Free Quality System Effectiveness Evaluation

Scan the QR code overleaf to complete a quick online evaluation covering:

1. Whether your QMS protects **compliance, customers, and profit**.
2. Value for **money** (what you're getting for the effort/cost).
3. How effectively you manage **risk** and **change**.
4. Your readiness for the **future** (scalability, resilience, improvement).

Takes around 2 minutes and gives immediate results

Plus Free 30-Minute Executive Review

We'll walk through your results, explain what they really mean, and highlight where your QMS is **holding you back**.

No obligation. No hard sell. Just clarity.

Quality System Review — 50% Introductory Fixed Fee of £1000

A **focused, practical** review of one quality system module, such as CAPA, Change Control, Risk Management, Supplier Quality

What you receive:

- **Clear diagnosis** of what's working vs what's not
- **Identification of cost drivers** and systemic **waste** inside the process
- **Prioritised** recommendations you can act on **immediately**

No long programme, no lock-in
Designed for leaders who want insight before investment.

Why use Datod Consulting ?

- Proven ability to turn QMS effectiveness into **measurable financial impact**.
- Practical, embedded **support**.
- Ability to build **capability** inside your organisation.
- Hands-on workshops and leadership-level training.
- Provide support **tailored** to your organisation.
- Led by a former Global VP QARA with 30+ years' experience building and fixing Quality systems across MedTech.
