3S and Mecha-ro Srl announce Strategic Partnership to Transform the Airport and Logistics Industry

Lugano, Switzerland—29 Dicembre 2025

3S Automation GmbH is proud to announce a new strategic partnership with Mecha-ro Srl, a leader in advanced automation solutions. This collaboration aims to revolutionize the airport and logistics sectors by combining 3S's expertise in automation with mecha-ro's innovative technologies.

Through this partnership, both companies will work together to deliver integrated solutions that enhance operational efficiency, safety, and sustainability for airports and logistics hubs across Europe and beyond.

The joint offering will leverage cutting-edge robotics, AI-driven process optimization, and seamless system integration to address the evolving needs of the industry.

"We are excited to join forces with mecha-ro," said Marco Infausto, CEO of 3S. "Together, we will set new standards for automation and digital transformation in airport and logistics operations, helping our clients achieve greater productivity and resilience."

Quote from mecha-ro's CEO:

"We believe that this partnership with 3S marks a significant step forward for the entire airport and logistics industry," said **Marco Padovani, CEO of Mecha-ro Srl**. "By combining our strengths, we are poised to deliver innovative solutions that will streamline operations, improve safety, and create new value for our customers. We look forward to a successful collaboration that will shape the future of automation in this sector."

The partnership will focus on:

- Developing next-generation automated handling and transport systems
- Implementing smart logistics platforms for real-time data and analytics
- Enhancing security and compliance through advanced monitoring solutions
