ITALCHIAVI S.R.L.

L'EVOLUZIONE ANCORATA ALLA TRADIZIONE

La **ITALCHIAVI Srl** rinasce nel 2006 dalle spoglie di una storica attività romana che vide le sue origini nei primi anni '80, sotto il nome di "Casa della Chiave", come rivendita al dettaglio, ma già con qualche inclinazione nell'ingrosso e sviluppa il proprio business sulla duplicazione chiavi soprattutto nel territorio romano; dopo qualche tempo si amplia e si evolve con l'inserimento di altre referenze come serrature e cilindri.

Sotto la guida del nuovo giovane titolare l'azienda ha puntato maggiormente al canale della distribuzione, trasferendosi in un magazzino più grande, sempre nel cuore di Roma, e da allora ha come core business l'ingrosso nel settore della sicurezza;

inoltre, credendo fermamente nel proprio lavoro, con passione, il titolare, così come i suoi collaboratori, ne segue l'evoluzione cercando di garantire sempre un servizio ed un'assistenza ad hoc per i propri clienti, soprattutto specialisti e LockSmith, mantenendoli sempre aggiornati e lanciando nuove idee.

"NON POSSIAMO PRETENDERE CHE LE COSE CAMBINO, SE CONTINUIAMO A FARE SEMPRE LE STESSA COSE" da *"Il mondo come la vedo io"* A. Einstein (1931)

EVOLUTION FIRMLY ANCHORED TO TRADITION

ITALCHIAVI Srl emerges from the ashes of an historical roman Company, established in the early 80's under the name of "Casa della Chiave" ("key's home"), as a retail company with an aptitude for wholesale. It starts to improve its business since the beginning by focusing on key redoubling, mostly in the area of Rome. After some time the Company expands its business through the integration of other specialised manufactures such as locks and cylinders.

Under the leadership of its young owner the Company focused mostly on the distribution channel, starting from moving to a wider warehouse in the hearth of Rome, and, since then, its core business has been focused on the wholesale and the security branch;

Moreover, strongly believing in their job and values, the owner together with his associates, follow the continuing evolution of the business with the aim to always guarantee the best service and support possible, ad hoc, for their customers, specialists and locksmiths, ensuring them to be always up-to-date by steadily proposing improved and new ideas.

"WE CANNOT SOLVE OUR PROBLEMS WITH THE SAME THINKING WE USED WHEN WE CREATED THEM" from *"The world as I see it"* A. Einstein (1931)

AP4S
SYSTEM

Cilindro AP4 S

SICURO SOTTO OGNI ASPETTO

Cilindro e chiave brevettati. Duplica della chiave possibile presentando la Security Card presso i CISA Solution Partner.

UNA SOLA CHIAVE PER PIÙ ACCESSI

Con un'unica chiave One Key di AP4S è possibile aprire più porte. Si riduce il numero di chiavi senza ridurre il grado di sicurezza.

ACCESSO CONTROLLATO

Il sistema permette di gestire ogni accesso in modo flessibile concedendo l'ingresso in determinati ambienti solo a chi è autorizzato.

CHIAVE PERSONALIZZABILE

Inserto colorato sulla testa, la chiave è riconoscibile identificando il suo livello gerarchico o di utilizzo.

APPLICAZIONI

AP4 S è indicato per soluzioni di alta sicurezza ad uso residenziale e per l'industria di porte blindate.

QUALITÀ, RISPETTO DELL'AMBIENTE, INNOVAZIONE

ERREBI è un'azienda che dal 1949 produce nello stabilimento di Cibiana di Cadore (BL) chiavi per serrature. Forte di una tradizione in loco per la chiave che risale al XVIII secolo, ERREBI ha saputo svilupparsi nel tempo cogliendo le opportunità di mercato fino a diventare una delle aziende leader nel suo settore. La gamma produttiva si è sviluppata nel tempo. Oltre alle chiavi tradizionali è in grado di fornire un'ampia scelta di prodotti tecnologicamente avanzati quali: chiavi transponder,

chiavi di sicurezza, macchine duplicatrici altamente sofisticate ad altro ancora.

Alla base del successo di ERREBI sta una lunga esperienza accompagnata da una costante attenzione alla qualità, al servizio, all'innovazione tecnologica e al rispetto per l'ambiente.

Non ultima una grande passione per il lavoro ed attenzione particolare alle risorse umane.

L'ingresso nel Gruppo Altuna (JMA), leader in Europa nel settore chiavi, ha infine fornito le sinergie per continuare nello sviluppo e guardare al futuro con grande ottimismo.

DELTA ADVANCE

PER CHIAVI DOPPIA MAPPA E POMPA

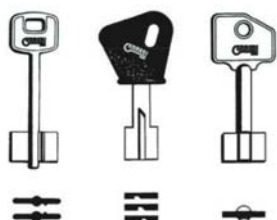

Con la nuova macchina DELTA ADVANCE si potranno duplicare chiavi a mappa semplice o doppia ("maschio" e "femmina"), chiavi a pompa o con tagli verticali. Il tutto senza limiti di lunghezza delle chiavi, grazie al suo sistema di morsetti su due altezze.

DELTA ADVANCE è l'ultimo modello di macchina ERREBI per la duplicazione di chiavi a mappa, doppia mappa e a pompa. In una dimensione compatta include tutti gli elementi necessari per duplicare con la massima precisione un'elevata varietà di chiavi a mappa, doppia mappa e a pompa. La principale novità è costituita dall'inclusione di un sistema di morsetti su due altezze con cui si potranno duplicare chiavi di qualsiasi lunghezza. I morsetti dispongono di ancoraggi specifici per bloccare sia la punta delle chiavi tipo "maschio" sia il fermo punta per la duplicazione delle chiavi femmina e delle chiavi "maschio" corte.

Il design della macchina punta su comodità e velocità di gestione del processo di duplicazione. I sistemi di bloccaggio e sostituzione dei carrelli, nonché il sistema di movimentazione dei carrelli con guide a rulli, rendono le operazioni molto più facili.

MICRO / MICRO 110

PER CHIAVI PIATTE, CHIAVI AUTO E CHIAVI A CROCE

La nuova macchina MICRO di Errebi è maneggevole e versatile nel suo servizio di duplicazione chiavi.

Leggera e compatta MICRO è perfetta per duplicare chiavi piatte, chiavi auto e chiavi a croce in qualunque spazio, anche nei veicoli.

Ideale per interventi di installazioni e di assistenze.

Con solo 6,5 kg di peso e 26 cm di lunghezza, MICRO è perfetta per lavorare in spazi ridotti. Ideale per chi lavora con le duplicatrici a bordo di un veicolo.

Fabbricata in acciaio, garantisce una grande durata e precisione nel taglio. Analogamente i quattro lati permettono un fissaggio più facile e affidabile delle chiavi.

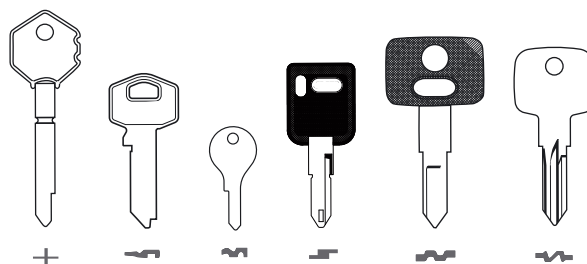

La ruota di traslazione del carrello fa sì che i movimenti siano omogenei e che si riduca la forza necessaria per lavorare.

Il sistema di calibrazione permette una regolazione esatta del tastatore e garantisce la precisione del duplicato.

La spazzola facilita la perfetta finitura della chiave duplicata. Inoltre essendo fabbricata in nylon evita "tagli" accidentali al professionista durante il lavoro.

LA CRISI SECONDO ALBERT EINSTEIN

“Non possiamo pretendere che le cose cambino, se continuiamo a fare le stesse cose.

La crisi è la più grande benedizione per le persone e le nazioni, perché la crisi porta progressi. La creatività nasce dall'angoscia come il giorno nasce dalla notte oscura. E' nella crisi che sorge l'inventiva, le scoperte e le grandi strategie. Chi supera la crisi supera sé stesso senza essere 'superato'.

Chi attribuisce alla crisi i suoi fallimenti e difficoltà, violenta il suo stesso talento e dà più valore ai problemi che alle soluzioni. La vera crisi, è la crisi dell'incompetenza.

L'inconveniente delle persone e delle nazioni è la pigrizia nel cercare soluzioni e vie di uscita. Senza crisi non ci sono sfide, senza sfide la vita è una routine, una lenta agonia. Senza crisi non c'è merito. E' nella crisi che emerge il meglio di ognuno, perché senza crisi tutti i venti sono solo lievi brezze. Parlare di crisi significa incrementarla, e tacere nella crisi è esaltare il conformismo. Invece, lavoriamo duro.

Finiamola una volta per tutte con l'unica crisi pericolosa, che è la tragedia di non voler lottare per superarla.”

(tratto da “Il mondo come io lo vedo” - 1931)
