Privacy Policy

Global Monetary

www.globalmonetaryinc.com

Effective Date: March 11, 2026

Last Updated: March 11, 2026

By continuing to access www.globalmonetaryinc.com you agree to the terms stated in this Privacy Policy. For questions relating to the Policy contact engage@globalmonetaryinc.com

Global Monetary Inc. (“Company,” “we,” “us,” or “our”) is a corporation duly organized and existing under the laws of the State of Delaware, United States of America, with its principal registered office located in Dover, Delaware. We own and operate the website www.globalmonetaryinc.com (the “Website”) as well as the associated StableForge AI autonomous treasury agent platform and all related services, tools, features, and mobile-responsive interfaces (collectively referred to as the “Service” or “StableForge”).

This Privacy Policy has been carefully drafted to provide you with a clear, comprehensive, and transparent explanation of our data collection, processing, storage, sharing, and protection practices. It is designed to comply fully with applicable data protection laws across multiple jurisdictions, including but not limited to the General Data Protection Regulation (GDPR) as implemented in the European Economic Area (EEA), the UK GDPR, the California Consumer Privacy Act (CCPA) as amended by the California Privacy Rights Act (CPRA), and other U.S. state privacy laws such as Virginia’s Consumer Data Protection Act (VCDPA), Colorado Privacy Act (CPA), and similar legislation.

We are deeply committed to protecting the privacy and security of all individuals who visit our Website, create an account, connect exchange API keys, receive notifications, or otherwise interact with the StableForge service. By accessing or using the Service in any way, you acknowledge that you have read, understood, and agreed to the practices described in this Privacy Policy. If you do not agree with any part of this Policy, you must immediately discontinue your use of the Service.

We encourage you to read this document in its entirety and to revisit it periodically, as we may update it from time to time to reflect changes in our practices or legal requirements. Any material changes will be communicated to you through prominent notices on the Website, via email where appropriate, and by updating the “Last Updated” date at the top of this page.

1. Information We Collect

We collect information in several carefully defined categories to provide, maintain, improve, and secure the StableForge service. The specific types and amounts of data collected depend on how you interact with us and which features you choose to use.

****Personal Data****

This includes any information that can directly or indirectly identify you as an individual. Examples include your full name, email address (such as the one used to register or contact engage@globalmonetaryinc.com), account username and password, preferred language settings, communication records (including support tickets and emails you send to us), and any optional profile details you choose to provide.

****Technical & Usage Data****

Automatically collected when you visit the Website or use the Service, this category covers your internet protocol (IP) address, browser type and version, device type and model, operating system, screen resolution, time zone, pages visited, time spent on each page, clickstream data, referring website, and other standard web analytics information collected through server logs and similar technologies.

****Service-Specific Data (StableForge AI Agent)****

Because StableForge is an autonomous trading and treasury management tool, we also collect and process certain operational data necessary for the AI agent to function effectively. This includes the trade-only API keys you voluntarily connect from supported cryptocurrency exchanges (Binance, Kraken, Coinbase, and others), your chosen risk thresholds, minimum profit spread preferences, notification delivery settings (such as Telegram username or email address for alerts), anonymized or pseudonymized transaction logs generated by the agent (e.g., buy/sell timestamps, pairs traded, profit percentages achieved), and performance metrics related to your account. Importantly, we never request, receive, or store withdrawal permissions, full wallet addresses beyond what is required for API functionality, bank account details, or any sensitive payment card information.

We do not intentionally collect any special categories of personal data (also known as sensitive data) such as racial or ethnic origin, political opinions, religious beliefs, health information, or biometric data unless you voluntarily provide such information in a support context, in which case we will only process it with your explicit consent and for the limited purpose of resolving your inquiry.

2. How We Use Your Information

We process your personal information only for legitimate, specific, and transparent purposes. The primary ways we use your data include:

- Providing the core StableForge functionality, including connecting your chosen exchanges, running the AI-driven arbitrage engine, executing automated trades on your behalf, and delivering real-time alerts and performance reports.
- Maintaining and improving the Service through internal analysis of usage patterns, bug fixes, feature enhancements, and security updates.
- Communicating with you about service-related matters, such as security alerts, important updates, or responses to support requests sent to engage@globalmonetaryinc.com.
- Preventing, detecting, and investigating fraud, unauthorized access, or other illegal activities that could harm the Service or our users.

- Complying with legal and regulatory obligations, including anti-money laundering requirements, tax reporting (where applicable), and responding to valid government or court requests.

****Legal Basis for Processing (EEA & UK Users)****

Under the GDPR and UK GDPR, we rely on the following lawful bases:

- Contractual necessity — to fulfill our obligations under the Terms of Service when you create an account or connect API keys.
- Legitimate interests — to improve security, analyze usage for product development, and protect the Service from abuse (we always balance these interests against your rights).
- Consent — for non-essential cookies, optional marketing communications, and any processing that falls outside the above categories (you can withdraw consent at any time).

We will only use your data for the purposes described above and will never engage in incompatible secondary uses without first notifying you and obtaining any required consent.

3. Sharing Your Information

We do not sell, rent, or trade your personal data for monetary consideration. We share information only in strictly limited, necessary circumstances and always under strong contractual safeguards:

- With trusted service providers and processors who assist us in operating the Service (for example, cloud hosting providers, analytics platforms, email delivery services, and payment processors such as Stripe). All such third parties are bound by data-processing agreements that require them to maintain equivalent levels of protection.
- With the cryptocurrency exchanges you explicitly authorize via trade-only API keys so that the StableForge AI agent can execute trades on your behalf.
- With professional advisers, auditors, or legal representatives when necessary to protect our rights, comply with legal obligations, or facilitate a business transaction such as a merger, acquisition, or asset sale (in which case your data would remain subject to this Privacy Policy or an equivalent replacement).
- When required or permitted by law, including in response to valid subpoenas, court orders, or regulatory demands from authorities in the jurisdictions where we operate.

We conduct thorough due diligence on all third parties and ensure appropriate safeguards are in place before any transfer occurs.

4. Cookies and Tracking Technologies (Comprehensive Cookie Consent Policy)

We use cookies, pixels, local storage, and similar tracking technologies to enable essential functionality, analyze usage, remember your preferences, and enhance your experience on www.globalmonetaryinc.com. Upon your first visit (and periodically thereafter), you will be presented with a clear, prominent, and easy-to-use cookie consent banner that complies with GDPR, UK GDPR, ePrivacy Directive, CCPA/CPRA, and other applicable laws. The banner allows you to:

- Accept all cookies for the best possible experience

- Reject all non-essential cookies
- Access a detailed, layered settings panel to customize preferences category by category

You may change or withdraw your consent at any time by clicking the “Cookie Settings” link in the footer of every page or by emailing engage@globalmonetaryinc.com. Your preferences are stored for 12 months and can be reviewed or updated whenever you wish. Blocking essential cookies may prevent certain parts of the Service from functioning correctly.

Detailed Cookie Categories

Strictly Necessary Cookies (cannot be disabled)

These cookies are essential for the Website to operate securely and deliver the Service. They enable account authentication, session management, security features, and basic navigation. Legal basis: contractual necessity. Examples include session IDs and anti-fraud tokens (duration: session only or up to 30 days).

Performance and Analytics Cookies (optional)

These help us understand how visitors use the Website so we can improve design, content, and performance. Tools may include Google Analytics or similar platforms. We anonymize IP addresses where possible. You can opt out via the consent banner or your browser’s Do Not Track settings. Duration: up to 2 years.

Functional Cookies (optional)

These remember your choices (such as language preference, theme, or saved risk thresholds) so you do not have to re-enter them on every visit. Duration: up to 12 months.

Targeting or Advertising Cookies (not currently used)

We do not currently deploy any advertising or cross-site tracking cookies. Should we introduce remarketing or similar features in the future, we will update this Policy, notify you in advance, and obtain fresh explicit consent before activation.

Full Cookie Inventory

An always-up-to-date, searchable list of every cookie we use — including name, purpose, provider, duration, and type — is available inside the consent management platform. Examples currently include:

- `_ga` and `_ga_XXXX` (Google Analytics) — 2 years
- `n8n_session` or platform-specific session cookies — session only
- `stripe_sid` or payment-related temporary tokens — session only

You can also manage cookies directly through your browser settings (Chrome, Safari, Firefox, Edge, etc.). However, please note that disabling certain cookies may limit functionality.

5. Data Security

Protecting your information is one of our highest priorities. We employ a robust, multi-layered security program that includes:

- Encryption of all data in transit (TLS 1.3) and at rest (AES-256)
- Secure, isolated storage of API keys using industry-leading vault technology (keys are never stored or displayed in plain text)
- Regular independent penetration testing, vulnerability scanning, and code reviews
- Strict role-based access controls and multi-factor authentication for all internal systems
- Comprehensive incident response and business continuity plans
- Employee training on data protection and confidentiality

While we use commercially reasonable efforts to safeguard your data, no internet transmission or electronic storage method is 100% secure. In the unlikely event of a data breach, we will notify affected users and regulators as required by applicable law.

6. Your Privacy Rights

Depending on your location, you have significant rights regarding your personal data.

For EEA and UK Residents (GDPR / UK GDPR)

You may request access to, rectification of, erasure of, or restriction on processing of your data. You also have rights to data portability and to object to processing based on legitimate interests. You may withdraw consent at any time without affecting the lawfulness of processing based on consent before withdrawal.

For California and Other U.S. State Residents (CCPA/CPRA and Similar Laws)

You have the right to know what personal information we collect and have collected about you, to request deletion, to correct inaccuracies, to opt out of any “sale” of personal information (we do not sell data), and to receive non-discriminatory treatment when exercising these rights.

How to Exercise Your Rights

To submit a verifiable request, please email engage@globalmonetaryinc.com with the subject line “Privacy Rights Request.” We will verify your identity (usually via email confirmation) and respond within one month (extendable by two additional months in complex cases). We do not charge a fee unless requests are manifestly unfounded or excessive. If you have an account, you may also manage certain data directly through your dashboard settings.

7. International Data Transfers

Because Global Monetary Inc. is based in the United States, your personal data may be transferred to, stored, and processed in the United States or other countries where our service providers operate. For users in the EEA or UK, we ensure adequate protection through the European Commission’s Standard Contractual Clauses (SCCs) and the UK Addendum to the SCCs, supplemented by additional technical and organizational measures. We regularly review these safeguards to maintain compliance.

8. Child Protection

The StableForge service is intended solely for individuals aged 18 years and older. We do not knowingly collect, use, or disclose personal information from children under 18. If we become aware that we have inadvertently collected data from a child, we will delete it promptly. Parents or guardians who believe their child has provided us with information should contact engage@globalmonetaryinc.com immediately.

9. Changes to This Privacy Policy

We may revise this Privacy Policy from time to time to reflect changes in our practices, technology, or legal obligations. The “Effective Date” and “Last Updated” dates at the top of the document will indicate when changes were made. We will notify you of any material modifications by posting a prominent notice on the Website homepage, sending an email to the address associated with your account, or through other appropriate channels. Your continued use of the Service after such notice constitutes acceptance of the updated Policy.

10. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy, our data practices, or your privacy rights, please do not hesitate to contact us:

Global Monetary
Dover, Delaware
United States of America

Email: engage@globalmonetaryinc.com

For EEA/UK data protection matters, the same email address serves as the primary point of contact and will be routed to the appropriate internal team or EU representative as required.

We are committed to resolving any privacy-related issues promptly and transparently.

End of Privacy Policy.
