JANUARY AND 2025 REFLECTIONS

This newsletter is a new way for us to share what we have been working on and the impact it is having across our clinics. From events and outreach to program growth and patient support, we look forward to keeping you connected to the work that moves our mission forward.

AMITY MEDICAL GROUP

COMMUNICATIONS

We are grateful for the partners who make our work possible. This newsletter is designed to support strong communication and improved transparency by keeping our partners informed and connected to the work happening within our clinics. Through open communication, we aim to build trust, alignment, and meaningful collaboration.

SATURDAY CLINIC UPDATES

As we look ahead to the coming year, we are excited to share what is on the horizon. Our Saturday clinics, held at the beginning of each month, will continue to be a key part of our outreach. We are also thrilled to partner with Charlotte Community Health Clinic, who will bring their mobile unit to our Saturday clinics to offer pediatric dentistry services for children in our community.
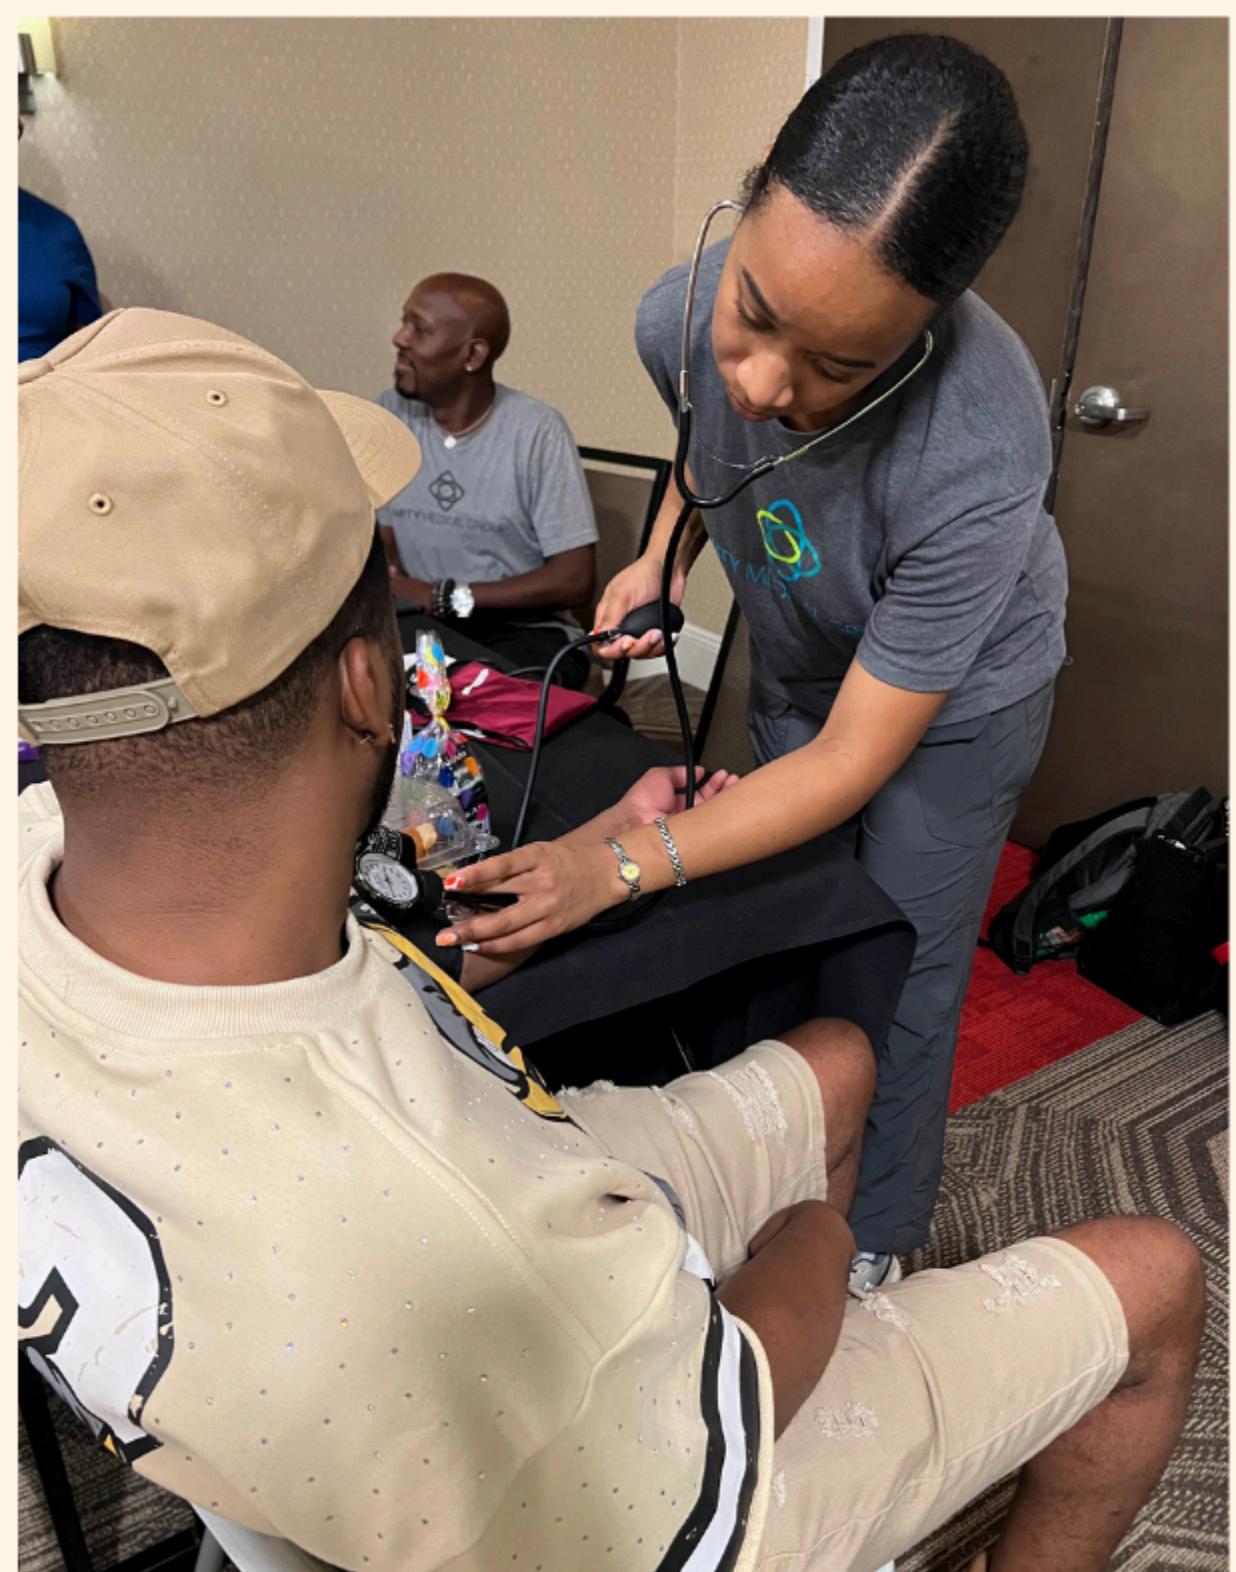

2025 REVIEW

This past year, with the support of our wonderful partners, we were able to participate in 29 community events and host 5 public health screenings. We celebrated our 10 year anniversary and held a back to school event, providing free health screenings and vaccinations to over 60 patients through a collaborative effort with our partners and the health department.

IMPACT

In 2025, we saw 11,400 patients across our clinics. Through our United Way grant, 264 new patients have received full coverage for appointments, labs, vaccinations, and up to $500 per month for prescriptions through Avant Pharmacy and Wellness Center. With support from our partners, we reached around 880 through outreach events, serving patients of diverse backgrounds.
