MONTHLY NEWSLETTER

FEBRUARY

Black History Month and Event Participation

February is Black History Month, a time to honor the remarkable contributions of Black leaders, innovators, and trailblazers in every field, including medicine. From pioneering physicians and researchers to public health advocates, Black medical professionals have played a vital role in advancing healthcare and improving lives across our nation.

This month, we are excited to participate in the African American Heritage Festival at the Charlotte Museum of History on February 28th, where we will be providing resources and handouts, connecting with members of our community to promote health and wellness.

PROVIDING CARE FOR THE WALK FOR PEACE MONKS

Amity Medical Group's Founder Dr. Richard Wynn receiving a bracelet made by one of the monks

We were deeply honored to be chosen to provide care for the monks participating in the Walk for Peace as they made their journey through Charlotte. Our clinical team arrived ready to serve, setting up pop-up tables, chairs, and our clinic box, the same setup we use for our regular public health screenings. It was a beautiful and humbling experience to provide care to the monks, and we are filled with gratitude for the opportunity to support them on their journey. Moments like these remind us why we do the work we do, and we are thankful for the trust and connection shared during this special event.

GRATITUDE

Executive Director Olivia Bentley

SATURDAY CLINICS AND MOBILE DENTAL UNIT

At our Saturday clinics, we offer diabetes management classes and nutrition classes to support the health of our patients. Through a partnership with Charlotte Community Health Clinic, we also provide pediatric mobile dental services, expanding access to care for children in our community. Our first Saturday clinic went wonderfully, and we look forward to our next ones. If you are interested in receiving services from our Saturday clinic, or pediatric mobile dental unit, please reach out to one of our offices!
