

AMITY MEDICAL GROUP

Amity Medical Group Community Resource Sheet

Evidence Based Addiction Treatment

How it works:

MAT programs combine FDA-approved medications with behavioral counseling to reduce opioid cravings and withdrawal symptoms. Treatment is delivered through clinics, outpatient programs, or correctional settings. Providers monitor progress and adjust care as needed, ensuring a personalized recovery experience.

<ul style="list-style-type: none">• Amity Medical Group	<ul style="list-style-type: none">• Amity Medical Group's MAT program relieves addiction with medications like buprenorphine or Suboxone, integrating behavioral therapies to address co-occurring mental health disorders effectively
<ul style="list-style-type: none">• Charlotte Community Health Clinic	<ul style="list-style-type: none">• Charlotte Community Health Clinic provides MAT with special focus on pregnant women, using approved medications and counseling to support recovery, ensuring safe treatment options during pregnancy.
<ul style="list-style-type: none">• Zenith Hope Center	<ul style="list-style-type: none">• Zenith Hope Center offers a comprehensive addiction treatment program combining Medication-Assisted Treatment (MAT) with counseling to support recovery, ensuring safe treatment options during pregnancy.

<ul style="list-style-type: none"> • New Season Treatment Center 	<ul style="list-style-type: none"> • New Season Treatment Center specializes in opioid addiction, offering Medication-Assisted Treatment (MAT) with Methadone and Suboxone. Their program integrates individual and group counseling, providing a focused approach to both the physical and psychological aspects of recovery.

Recovery Support Services

How it works:

Trained peer specialists and care navigators work with individuals throughout their recovery journey, connecting them to community resources like support groups, healthcare providers, and housing programs. Peer support focuses on building trust and shared experiences, while care navigators help individuals overcome logistical barriers-such as transportation or accessing social services-to sustain long term recovery.

<ul style="list-style-type: none"> • Amity Medical Group 	<ul style="list-style-type: none"> • Amity medical group offers a range of recovery support services especially designed for individuals who are uninsured and underinsured. Their comprehensive program includes peer support, substance use counseling, harm reduction, and extensive case management.
<ul style="list-style-type: none"> • Amara Health 	<ul style="list-style-type: none"> • Amara Wellness provides research and evidence based activities including site-specific Group Therapy Services facilitated by Peer Specialists with lived experience for individuals who are unhoused or living in supportive housing suffering from co-occurring opioid use disorder (OUD), substance abuse disorder (SUD), and /or mental health issues.

<ul style="list-style-type: none"> • Atrium Health (Project Seed) 	<ul style="list-style-type: none"> • SEED was developed to provide substance use disorder education in the emergency department, with a goal of elevating the treatment of substance use disorder and connecting patients to treatment in the community as needed.
<ul style="list-style-type: none"> • Carolinas Care Partnership- 	<ul style="list-style-type: none"> • Carolinas Care Partnership offers specialized peer navigation and mental health services tailored to the unique needs of the Latinx and LGBTQIA+ communities. By focusing on these populations, the organization works to improve access to mental health treatment and integration into supportive community networks, enhancing the overall effectiveness of recovery strategies and support systems available county-wide.
<ul style="list-style-type: none"> • Hope Haven 	<ul style="list-style-type: none"> • Hope Haven supports individuals to achieve lasting recovery by employing certified peer support specialists who guide residents in building essential recovery capital.
<ul style="list-style-type: none"> • SMART Recovery 	<ul style="list-style-type: none"> • SMART Recovery USA offers self empowering, evidence based mutual support groups. They provide community-wide, trauma-informed education to enhance awareness of recovery methods, utilizing the lived experiences of individuals to boost community understanding and support.

Recovery Housing Support Services

How it works

Programs offer rent assistance, utility subsidies, and safe, recovery housing for active substance users with intensive management, including assistance with move-in deposits and utilities.

<ul style="list-style-type: none">• Queen City Harm Reduction:	<ul style="list-style-type: none">• provides recovery housing, offering MAT-capable homes and low-barrier access to independent living. They provide peer support, sober events, and transportation to ensure a smooth transition for residents into independent living.
<ul style="list-style-type: none">• Hope Homes Recovery Services:	<ul style="list-style-type: none">• Provides recovery housing, offering MAT-capable homes and low-barrier access to independent living. They provide peer support, sober events, and transportation to ensure a smooth transition for residents into independent living.
<ul style="list-style-type: none">• McLeod Center for Wellbeing	<ul style="list-style-type: none">• McLeod Center for Wellbeing has developed an emergency financial assistance fund to prevent disconnections due to unpaid bills, ensuring that clients don't have to choose between paying for treatment and housing. They also connect individuals with financial navigators to manage financial challenges more effectively.
<ul style="list-style-type: none">• Oxford House	<ul style="list-style-type: none">• Oxford House offers housing services tailored for individuals re-entering the community from the justice system, focusing on those with opioid use disorder. They support scholarships for 150 individuals and provide essential training on overdose prevention and response.

<ul style="list-style-type: none"> • Doves Nest (Charlotte Rescue Mission) 	<ul style="list-style-type: none"> • Dove's Nest is a free, Christian-based residential recovery program for women struggling with addiction. Located in West Charlotte, it also offers services to women with children ages 5–11. The program provides a safe, supportive environment focused on spiritual growth, life skills, and long-term sobriety. With a capacity of 120 beds, Dove's Nest helps women rebuild their lives through comprehensive recovery services.

Employment-Related Services

How it works

Participants engage in job readiness activities, including resume building, interview preparation, and job skills training. Employment specialists also helped individuals manage challenges like transportation or childcare, ensuring they stay engaged in the workforce and build financial independence.

<ul style="list-style-type: none"> • Charlotte Area Fund 	<ul style="list-style-type: none"> • Offers an array of employment support services, job training and skill development for people engaged in substance use or at recovery
<ul style="list-style-type: none"> • Hope Haven 	<ul style="list-style-type: none"> • Hope Haven assists individuals in recovery by connecting them to comprehensive job training and employment resources. Participants have access to a range of workshops that enhance job readiness skills, including resume building and interview preparation, tailored to support their transition into the workforce.
<ul style="list-style-type: none"> • National Center on Institutions and Alternatives 	<ul style="list-style-type: none"> • The National Center on Institutions and Alternatives offers specialized job training and placement services focused on vocational programs. Their services are designed to meet the unique needs of those in recovery, helping them to gain meaningful

	employment and reintegrate into the community successfully.

Early Intervention

How it works

Early intervention aims to prevent the escalation of risky behaviors by engaging young people and their support networks with appropriate services. This intervention includes screening tools, education programs, and training for teachers, parents and peers to recognize early warning signs and connect youth to prevention or treatment services before issues escalate.

<ul style="list-style-type: none"> • Anuvia Prevention and Recovery Center 	<ul style="list-style-type: none"> • Anuvia provides the FOCUS program for teens showing early signs of substance curiosity. It focuses on enhancing communication and decision-making skills through a comprehensive suite of activities including group discussions, educational workshops, and role-playing.
<ul style="list-style-type: none"> • Center for Prevention Services 	<ul style="list-style-type: none"> • CPS will encourage and expand early identification and intervention for children or adolescents who may be struggling with problematic use of drugs or mental health (MH) conditions that could lead to opioid use issues using a variety of evidence based strategies and initiatives.
<ul style="list-style-type: none"> • Project 658 	<ul style="list-style-type: none"> • Project 658 offers an evidence based early intervention curriculum that targets individual, family, and practitioner levels to foster key development skills like self regulation and resilience in youth.

<ul style="list-style-type: none"> • Thompson Child and Family Focus 	<ul style="list-style-type: none"> • Thompson Child and Family Focus utilizes the Friends of the Children program to provide vulnerable children with a salaried, professional mentor for over a decade, focusing on long term educational and developmental outcomes.
--	---

Naloxone Distribution and Syringe Services Programs (SSPs)

How it works

Community programs distribute naloxone kits, provide training on their use, and may offer resources for addiction treatment and recovery. Participants receive sterile syringes, safe disposal tools, and education on safer injection practices. Many SSPs also offer naloxone kits, wound care, and referrals to substance use treatment and mental health services.

<ul style="list-style-type: none"> • Mecklenburg County Public Health Department 	<ul style="list-style-type: none"> • Mecklenburg County Public Health Department is expanding access to naloxone through innovative public health medical vending machines. These kiosks, located at community resource centers, offer naloxone alongside other health essentials free of charge to effectively address and prevent opioid overdoses within the community.
<ul style="list-style-type: none"> • Queen City Harm Reduction 	<ul style="list-style-type: none"> • Queen City Harm Reduction operates a comprehensive syringe service program aimed at reducing the spread of infectious diseases and preventing overdose fatalities among marginalized groups. Their services include distributing free sterile equipment and naloxone, along with providing HIV and Hepatitis C testing, safer sex supplies, and linkage to various healthcare options and resources.
