RIPPLE SHADE

RIPPLE SHADE COLLECTION

The Ripple Shade is a contemporary window treatment that brings a delicate soft flow to your window covering. Draped with a perfect blend of aesthetics and functionality, Ripple Shade offers both the luxury of a curtain with the simplistic structure and function of a blind. Available with a choice of top tracks that offer durable smooth operation.

- ó The Luxury of a curtain the structure of a blind
- ó Suitable for large and wide areas
- ó Combines perfectly with a screen or blackout Roller blind

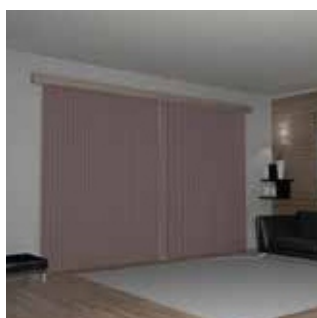

FABRIC RANGE

The Ripple Shade fabric collection is available in three ranges.

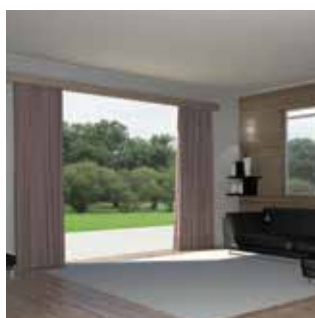

Perth is a sheer fabric that filters light and allows a view to the outside. It is available in 7 neutral colours. Perth can also be lined with a Dim Out lining and serve a dim out and privacy function.

Hobart is a light filtering product with a heavier weight available in 5 colours, it can also be lined with a Dim out lining.

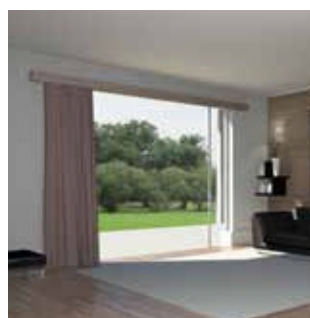

Cairns is our Dim Out lining. It is available in 4 complimentary colours. Cairns can be used to line the other ranges or used independently.

TRACK CHOICE

At the heart of the Ripple Shade is the track system. The track allows the window covering to provide the modern ripple effect while keeping the runners perfectly spaced from each other.

The Ripple Shade has a number of tracks that provide for different aesthetics and functionality. All Ripple Shade tracks are designed for heavy duty applications and are available to handle heavier fabrics and wider widths.

Tracks are available for top or reveal fixing or for single/double wall or face fixing. The runners come in a variety of fullness factors ranging from 100% to 40% fullness to allow for flexibility in the look and the stack size.

Below is an illustrative summary of our track systems

Ripple Avant Silver.
Available in Anthracite,
Champagne, Silver and White.

Ripple Urban Anthracite
Available in Anthracite,
