

What to Prepare for Your CTAP Audition

Audition day is your moment to shine! We're so excited to see your talent, creativity, and heart on display. Here's everything you'll need to come prepared and make the most of your audition experience:

- **Dress to impress!**
Choose an outfit that looks polished and performance-ready. Avoid t-shirts with logos or distracting graphics. Wear something that helps you feel confident and expressive — you want to stand out for all the right reasons!
- **Bring your karaoke track.**
You'll need a device (like a phone or tablet) to play your accompaniment track. Make sure it's cued up and ready to go before you enter the audition room so everything runs smoothly.
- **Keep your song short and strong.**
Your audition song should be no longer than **one minute** — choose a section that really shows off your voice and personality. *If it goes a little over, don't stress!* We just want to make sure everyone has time to shine.
- **Headshot time!**
We'll take your **headshot** at auditions, so come camera-ready with your best smile and confident posture.
- **Show your energy and heart.**
When you sing and act, bring lots of energy and emotion! Show us your passion for performing and how you connect with your character.
- **Most importantly — have fun!**
Auditions can feel nerve-wracking, but remember: at **Christian Theater Arts Project**, we're a **family**. We're cheering you on and can't wait to see you share your gifts.

Come prepared and be yourself because this is more than just an audition; it's the beginning of a new creative adventure, new friendships, and a season filled with growth, joy, and the incredible experience of using your talents to glorify God through the performing arts.
