ROOFING  
SOLUTIONS

Asphalt Shingle

**139°**

attic temperature

Concrete Tile

**94°**

attic temperature

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing standard Newpoint™ concrete roof tile to a common asphalt shingle. The result is less heat in the attic and lower energy bills.

# Hail Rated

## HAIL RATED CONCRETE TILE ROOFS MAY PROVIDE INSURANCE REDUCTIONS

Newpoint™ has a complete offering of Class 3 and Class 4 Impact concrete tile, the highest hail performance certification recognized in the industry.

You may qualify for an insurance reduction when choosing one of Newpoint's hail certified roof tiles.

## EASY TO REPAIR

Unlike many other roofing materials, tile can be replaced individually without replacing the entire roof.

❏ Ice ball cannon (dimensions: 13 feet long and 5 feet tall)

❏ The hail testing at Architectural Testing's laboratory in Dallas, Texas under test protocol for Factory Mutual 4473.

### Hail Impact Testing Video

View the live hail impact testing video on our website at [WestlakeRoyalRoofing.com/About/Hail Testing](https://www.WestlakeRoyalRoofing.com/About/Hail-Testing) or on YouTube under Newpoint™ Concrete Roof Tile Hail Testing Procedures.

## HAIL TESTING

In the Class 4 hail test, 2 inch ice balls are shot at 104 feet per second (approx. 70 mph), to develop the intended kinetic energy. This test is the most rigorous test using the largest ice balls, impacting the product specimen 4-6 times.

# Material Matters.

## VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

## BEAUTY MATTERS

Newpoint™ concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

## DURABILITY MATTERS

Newpoint™ concrete tile gains strength over time, and usually meets building structure and wind rating code requirements. Tile will last 3.75 times longer than an asphalt shingle roof.

## SUSTAINABILITY MATTERS

Newpoint™ roof tile is locally made and sourced in Colorado for the Rocky Mountain and Heartland regions. Newpoint™, manufacturer of concrete roof tile, has been serving Colorado home builders, HOA's and homeowners with affordable roofing solutions since 2003.

# Color Matters

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Rocky Mountain and Heartland regions. We take pride in the color quality and blending we provide.

# 3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles.

## TRADITIONAL

American adaptations of regional home styles from other time periods or areas of the world. Often mixed references.

MEDITERRANEAN  
TUSCAN  
SPANISH MISSION  
CRAFTSMAN / BUNGALOW  
COLONIAL

## TRANSITIONAL

Prefers the clean lines of contemporary architecture, but draws heavily on details and styles from traditional architecture.

RANCH / SPLIT LEVEL  
PRAIRIE STYLE  
MIXED LOOKS

## CONTEMPORARY

Characterized by a preference for clean lines, open concepts, decoration, ample light sources, large windows, and lack of round forms.

The printed colors shown in this brochure may vary from actual available tile colors. Always use actual product samples for color selection.

## LOW PROFILE COLLECTIONS

### Saxony® Slate Impact

Design to help withstand severe weather conditions. Class 4 Hail Rated.

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 21

### Saxony® Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 23

### Saxony® Shake

Captures rustic beauty of hand-hewn shakes. Ideal for French Country, Victorian Craftsman or Cottage architectural styling.

P. 27

#### Designer Product

### Saxony® Split Old English Thatch

This classic variation of both shake and slate tile adds a distinctive architectural style. Split Shake tiles are best suited for Cottage, Country and Traditional American Homes.

P. 31

#### Designer Product

### Madera 900

The most authentic, affordable replication of a hand-split cedar shake roof available. With its realistic wood shake surface, Madera 900 will complement any architectural style.

P. 33

Madera | Custom Blend

Shake | Mesa

Split Old English Thatch | Black Canyon

Barcelona | Goldenrod

## HIGH & MEDIUM TILE PROFILE COLLECTIONS

### Villa 900

Emulates beautiful Mediterranean styles found in Italy and Southern France.

P. 35

### Barcelona

This modern interpretation of old world Spanish design creates a distinctive mission tile appearance.

P. 38

### Boosted Barcelona Caps

Available installation application of Barcelona which creates the appearance of an authentic mortar-boosted tile.

P. 42

Boosted Barcelona Caps | Casa Grande Blend

Villa | Red Sky

Barcelona | California Mission Blend

\*Saxony Split Old English Thatch is sold in Half Pallets.

Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website. Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through [myWestlakeRoyal](#), a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

Limited Lifetime Warranty

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today. For product warranty details, please see Newpoint™ Concrete Product Warranty on our website at [westlakeroyalroofing.com/resources/warranties/](#). The warranty found there is the sole warranty applicable to Newpoint™ roofing products.

About Westlake Royal Roofing Solutions™

The Roofing Solutions portfolio from Westlake Royal Building Products™ is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems. Encompassing a suite of materials that provide strength, versatility, and refinement, our portfolio includes US Tile® Clay Roofing Products, Newpoint™ Concrete Roof Tile, Unified Steel™ Stone Coated Roofing, DaVinci® Roofscapes, and Westlake Royal™ Roofing Components, all designed to deliver a higher standard of roof installation, performance, and design.

**Code Approval:** Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles are Class A fire rated.

**Disclaimer:** The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

**Installation:** According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

# BE BOUNDLESS™

**THE PRODUCTS TO DO EVERYTHING. THE POWER TO DO EVEN MORE.**

We're answering "what ifs" on a whole new level—from the solutions we create to the dreams we build. We have the tools and technology to tell design stories on a bigger scale and on a more personal level. There are no limits to how far we innovate, how deeply we express, how strongly we commit and how boldly we go.

**Together let's Be Boundless™.**
