

### **3.5 March Newsletter 2026**

**We will complete our Balloon Unit in the beginning of March with a special visit from Magic Bob. We will also do “balloon science” and put our finishing touches on our hot air balloons.**

**Our next unit is sure to be a big hit - DINOSAURS! The children will be learning about carnivores, herbivores, and omnivores. They will be paleontologists and discover dinosaur fossils and will have fun imagining the fun things we would do with dinosaurs if they came back. Our study of dinosaurs will include some fun art projects and special songs.**

**This month we are excited to welcome our grandparents to St. Peter’s for a special pizza party! We will sing some of our special songs and will show them our artwork in our classroom.**

**Conferences will be held this month. We cannot wait to meet with you and share all the wonderful learning taking place this year at school!**

**Mrs. Walsh, Mrs. Buccino, Mrs. Houlihan & Mrs. Doyle**
