DURAWATT GENERATORS

DuraWatt GP10500i
Inverter Portable Generator

The DuraWatt GP10500i Inverter Portable Generator is a technologically advanced power system catering to diverse applications. With an available 10500-watt output, it delivers optimal performance for a spectrum of electronic devices, appliances, and power tools. The dual-insulated design not only ensures operational efficiency but also mitigates sound levels to a mere 56 decibels*, aligning with engineering principles of precision and acoustics. The integration of an LED display augments the generator's functionality, providing real-time data for comprehensive monitoring and control.

*load dependent

KEY FEATURES

- 8500 running watts and 10500 peak watts
- Remote start capability (included)
- Easy to transport
- 8.7-gallon fuel tank for up to 20 hours of run time at 25% load
- OHV 4-Stroke engine
- Low noise level of 56 decibels* thanks to double insulation
- Digital inverter technology for clean and stable power
- RV and TT-30R outlets for easy connection
- Two: 120V 20Amp, One: 120V 30Amp, One: 120/240 30Amp, and One: 120/240 50Amp outlet for versatile power
- Two 5V USB ports
- LED data center for monitoring important information+

ADVANTAGES

- Provides clean and stable power for sensitive electronics
- Low noise level makes it ideal for use in quiet environments
- Fuel-efficient design for longer runtime
- Electric start for easy operation
- RV and TT-30R outlets for convenient use with recreational vehicles

APPLICATIONS

- Camping and outdoor activities
- Powering RVs and mobile homes
- Emergency backup power for home and business
- Construction and job sites
- Tailgating and outdoor events
- Food Trucks, Concession Trailers

ADDITIONAL INFORMATION

- **Length:** 33” (838mm)
- **Width:** 26” (660mm)
- **Height:** 28.4” (721mm)
- **Weight:** 236 lbs. (107Kg)
- **Fuel Type:** Unleaded Gasoline, 10% Ethanol or less
- **Gasoline Fuel Gauge:** Yes
- **Engine Type:** OHV 4-stroke
