ASSESSMENT & STRATEGY STARTER

2026

THE AI READINESS AUDIT

The AI Readiness Audit gives your firm a clear, practical starting point for exploring AI. The process begins with a guided discovery session supported by Caspian, our AI assistant, which helps efficiently gather insights about your technology, workflows, team readiness, and security needs. From there, Christian & Meagan conduct a detailed analysis to produce your readiness score, an executive summary, prioritized use cases, and a 30-day action plan. You'll also receive a review of your current tools and vendor-neutral recommendations designed to work with the systems you already trust. Every deliverable is attorney & legal engineer-reviewed, scaled to your firm size, and 40% of the audit fee is credited if you choose to move forward with implementation.

WHAT'S INCLUDED

- AI Priority Roadmap
- Executive Summary
- Top Use Cases
- Tech Stack Analysis
- Bespoke Tool Recommendations
- 30-day Action Plan

PRICING

- \$650 Solo Attorney
- \$1250 2-5 Attorneys (up to 7 total staff)
- \$2100 5-10 Attorneys (up to 12 total staff)
- \$3500* 10+ Attorneys (up to 20 total staff)
- *Payment terms to be discussed*

NOTES

*Firms with 10+ attorneys start at \$3500 but this price is subject to increase based on your organization's structural complexity & overall number of stakeholders.

*If you move forward with an AI implementation or strategy engagement within 60 days of report results, 40% of your audit fee is credited.

AI READINESS

ASSESSMENT & STRATEGY STARTER

2026

In addition to a complete audit, Code & Counsel provides the following services to further enhance your firm's AI implementation journey:

ADD-ON OPTIONS

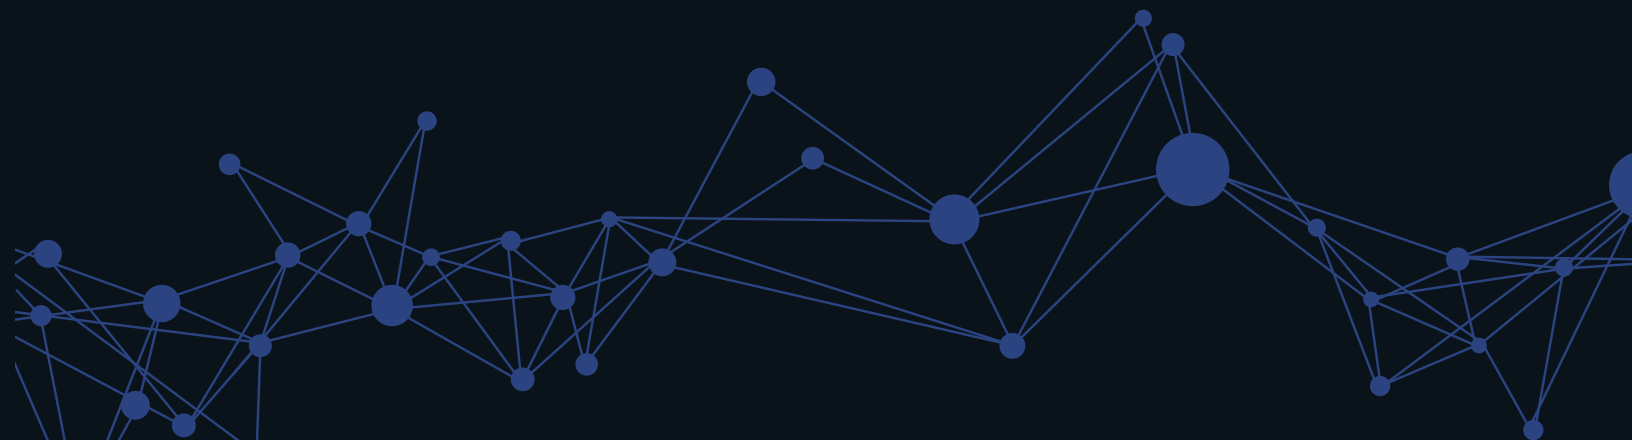

- Custom Internal AI Policy Drafting
- Tool Implementation Plan
- Staff AI Training Workshop

COST

- \$300-\$900
- \$300-\$1200
- \$600-\$1500

POST AUDIT STRATEGY & IMPLEMENTATION

After your AI Readiness Audit, our tiered next-step options help your firm move forward at a comfortable pace. Whether you want to test a few practical use cases, improve key workflows, or develop a longer-term strategy, each option focuses on safe, practical adoption tailored to law firm realities – without requiring large upfront commitments or abandoning the trusted tools you already use.
