

# Gain visibility **and** insights with Priswing + Tee Time Distribution

**Priswing works alongside distribution channel partners to help you optimize performance.**

- Understand the true value of your tee times based on demand, daypart, seasonality, and more
- Use predictive pricing to support demand generation across channels, including third-party marketplaces
- Protect your most valuable time slots from being undervalued even unintentionally

**Priswing BI gives you a clear view of your booking sources.**

- Bookings and revenue by source including GolfNow, Supreme Golf, and more
- Channel performance over time
- Where your most profitable rounds are coming from

**With Priswing, you don't need to change platforms or processes, you simply gain the data and pricing tools to make all of them work better for your business.**

## Get the Full Picture of Tee Sheet Performance

If you're using third party marketplaces to reach more players, especially in travel-heavy or competitive markets, you're tapping into a powerful channel.

But when tee times distributed across multiple sources, it becomes harder to know exactly how each is contributing to your bottom line.

**That's where Priswing comes in.**
