

“the best educational experience”

“I really loved doing the academic upgrading at the Oshawa Campus at Durham College.

My two professors were phenomenal at teaching and being such great people during the time I was their student.

I even managed to meet a classmate who sat next to me often and I chatted with her here and there and it was a nice experience.

The material in the course was not so hard at all, it was quite easy to understand, and I was able to do the work well.

I loved doing the academic upgrading at Durham College and I miss it dearly, probably the best educational experience I have ever had, and I hope others like it too.”
