

SPECIFICATION SHEET

DF-A23

previously KS-350

Yellow knitted glove made of Kevlar® stretch, coated with black foam nitrile on the palm.

BENEFITS

- Breathable for enhanced user comfort.
- High dexterity and flexibility for precise handling.
- Superior resistance to cuts and abrasion.
- Excellent grip in slightly greased applications.

OPERATIONS

- Ideal for handling ceramic pieces, wet or dry, where there is a risk of cuts.
- Suitable for spot welding processes involving the manipulation of hot metallic pieces in pre-assembly areas.

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks: cuts, abrasion, back-of-hand impact, and light vibration.
- Does not provide protection against electrical risks, fire, high temperatures, or chemicals.
-
- Not to be used for welding.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers
