

SPECIFICATION SHEET

DF-A33R

Kevlar® stretch knitted glove, black with black foamed nitrile coating on palm and TCR between thumb and index finger.

BENEFITS

- Breathable.
- High dexterity and flexibility.
- High abrasion and cut resistance.
- Great grip in lightly oily applications.
- TCR provides longer glove life by protecting the area of greatest wear and abrasive demand.

OPERATIONS

- Handling of wet or dry ceramic parts where the risk of cutting is present.
- Ideal for spot welding processes, where hot metal parts are handled.

“Safety and comfort for the industrial athlete”

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks: light cuts and abrasion.
- Does not offer protection against electrical hazards, fire, high temperatures, or chemicals.
- Do not use for welding.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers.
