

SPECIFICATION SHEET

DF-B61

previously HCP6

Black knitted glove made of a blend of HDPE and synthetic fibers, coated with black polyurethane on the palm.

BENEFITS

- Anatomical design for a better fit.
- Excellent sensitivity for precise handling.
- Thin material for enhanced comfort during extended use.
- Provides a good grip in various conditions.
- High resistance to cuts and abrasion.

OPERATIONS

- Ideal for handling sharp and heavy pieces, whether wet or dry.
- Suitable for managing materials in storage or performing general tasks with a high risk of cuts and abrasion.

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks: light cuts and abrasion.
- Does not offer protection against electrical hazards, fire, high temperatures, or chemicals.
- Do not use for welding.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers.
