

## SPECIFICATION SHEET

# DF-B73

previously HC-357

Black knitted glove made of a blend of HDPE and synthetic fibers, coated with black foam nitrile on the palm.

### BENEFITS

- Anatomical design for a comfortable and secure fit.
- Excellent sensitivity for precise handling.
- Thin, lightweight material enhances comfort during extended use.
- Good grip, even in the presence of light grease.
- Provides high resistance to cuts and abrasion.

### OPERATIONS

- Ideal for handling sharp tools or materials, such as blades.
- Perfect for tasks requiring maximum cut protection and reliable grip in slightly greased processes.

### INDUSTRY

Metalmechanic

# LIMITATIONS OF USE

## 1. Specific protection:

- Designed for mechanical risks: light cuts and abrasion.
- Does not offer protection against electrical hazards, fire, high temperatures, or chemicals.
- Do not use for welding.

## 2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers.
