

SPECIFICATION SHEET

DS-A60T+

Yellow double terry knitted glove made of a blend of aramid with a cotton lining, featuring reinforcement between the thumb and index finger and a long canvas cuff for added protection.

BENEFITS

- Ambidextrous design for versatile use.
- Reinforcement between the thumb and index finger enhances durability.
- Canvas cuff provides superior arm protection
- High level of cut resistance.
- Terry loops prevent clogging with manipulated objects.
- Despite its thickness, the glove offers excellent comfort and flexibility.

OPERATIONS

- Ideal for handling hot metallic pieces intermittently (up to 350°C).
- Recommended for manipulating sharp sheets and rough metals.
- Suitable for operations requiring low dexterity.
- Designed for engine assembly tasks.

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks: light cuts and abrasion.
- Does not offer protection against electrical hazards, fire, high temperatures, or chemicals.
- Not to be used for welding.
- Do not use in the presence of oil or grease.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers.
