

SPECIFICATION SHEET

DS-A70

previously K-30

LINE

Yellow vulcanized glove made of a blend of aramid with a cotton lining, featuring reinforcement between the thumb and index finger for enhanced durability.

BENEFITS

- Ambidextrous design for versatile use
- Durable and long-lasting construction
- Material provides excellent cut and heat resistance
- Reinforcement between the thumb and index finger offers superior abrasion protection.

OPERATIONS

- Ideal for deburring processes and handling sharp blades.
- Suitable for manipulating hot pieces.

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks: cuts, abrasion, back-of-hand impact, and light vibration.
- Does not provide protection against electrical risks, fire, high temperatures, or chemicals.
-
- Not to be used for welding.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or significant loss of coating, or if visible damage is present on the palm or fingers
