

SPECIFICATION SHEET

GS-A21

previously MA-KA18

Yellow double-layered sleeve made of a blend of Kevlar® with a thumb slot, providing enhanced protection and comfort.

BENEFITS

- Fresh and breathable for added comfort.
- Comfortable for extended wear.
- Washable for easy maintenance.
- Provides good cut risk resistance.
- Offers moderate temperature risk resistance.

OPERATIONS

- Suitable for thermal processes such as spot welding.
- Ideal for handling sharp pieces that could lacerate forearms.
- Designed for manipulating sheet coils or any other heavy equipment requiring forearm use.

LIMITATIONS OF USE

1. Specific protection:

- Designed for mechanical risks such as cuts and temperature.
- Does not provide protection against electrical risks, fire, high temperatures, or chemicals.
- Check its temperature resistance to avoid exceeding its protection limit.
- Do not use for welding.

2. Glove integrity:

- **Do not use** if there is excessive wear, tears, or visible damage along the glove.
