

SPECIFICATION SHEET

GS-A21

previously MA-KA18

Yellow double-layered sleeve made of a blend of Kevlar® with a thumb slot, providing enhanced protection and comfort.

BENEFITS

- Fresh and breathable for added comfort.
- Comfortable for extended wear.
- Washable for easy maintenance.
- Provides good cut risk resistance.
- Offers moderate temperature risk resistance.

OPERATIONS

- Suitable for thermal processes such as spot welding.
- Ideal for handling sharp pieces that could lacerate forearms.
- Designed for manipulating sheet coils or any other heavy equipment requiring forearm use.

LIMITATIONS OF USE

1. Specific protection:

- Designed for hazards such as occasional contact with hot surfaces.
- Does not provide protection against electrical, fire, or chemical hazards.
- Not to be used for welding.
- **Note:** Kevlar is the only synthetic material that withstands high temperatures (500°C) without degrading, although thermal transfer may still cause burns.

2. Glove Integrity:

- **Do not use** if there is excessive wear, tears, or visible damage along its entire length.
