## We work with the best.

Satek Engineered Components represents top-tier manufacturers, offering a wide range of industrial components like roller chains and planetary gearboxes. We partner with these companies because of their commitment to precision, reliability, and innovation, ensuring our customers get high-quality products for their specific needs. This makes us a trusted one-stop solution for all industrial component requirements.

# **SATEK** Engineered Components, INC.

Rombo is the market leader in leaf chain, skid steer loader chains, agricultural roller chains as well as accumulator roller chain products.

Neugart is a leading planetary gearbox manufacturer that helps customers "right size" gearboxes for their applications. Ensuring they save money and optimize their applications.

Hexelus distributes couplings, torque limiter clutches, right angle spiral bevel gearboxes, ball screw actuators driven by AC and servo motors.

Full line manufacturer of custom molded rubber products of various polymers. Three generations of expertise help our customers identify the right materials for their applications.

KGBAL is the largest manufacturer of rod ends, spherical bearings, linkage assemblies, custom forgings and hydraulic accessories.

Industrial Indexing Systems designs, manufactures and specializes in servo motion control.

Manufacturer of stamping assemblies with up to a 400 ton capacity. They have precision fabrication, robotic welding, wire forming, laser cutting and mechanical assembly capabilities.

We offer a comprehensive range of products and services—cutting edge gear solutions for a wide range of applications and specialized gear reconditioning services.

Providing quality, unique gearboxes and solutions for use on industrial machinery.

Manufacturers of both round and square tubing up to 4" in diameter of both simple and complex bent tubes and complex assemblies. Solutions provided through team collaboration with customers.

## Here for you before, during, and after the sale.

At Satek Engineered Components, our expert team possesses extensive technical expertise to assist you in choosing the perfect equipment tailored to your specifications. Furthermore, we provide services designed to turn your vision into reality and enhance the longevity of your equipment.
