## NICHE & CRYPT permanent choice

Some families place the urn in a columbarium niche or a crypt, providing a location where they can pay their respects. Personalizations are vast.

## BURIAL permanent choice

Burying an urn in the cemetery is a popular choice for families since it provides a permanent resting place where families & friends can freely visit.

## HOME short-term choice

Displaying an urn at home or on a beautiful pedestal in your garden is an option. Some families express concerns about the long-term custody of the cremains.

## SCATTER irreversible choice

Since scattering cannot be reversed, you may wish to scatter only a portion of the cremated remains and have the rest permanently placed at St. Charles Memorial Gardens
