Design Collection Doors

The unique doors of this collection are the perfect counterpart to the horizontal lines that triumph in contemporary architecture. Minimalist yet bold, their design brings contrast to strongly textured facades making the entrance a striking visual element. Vivid or neutral in color, Design Collection doors never go unnoticed.

NEW
Tao steel door

Tao steel door **NEW**
Sandblasted finish glass

Tao means harmony with nature. This door's horizontal lines feature gentle organic curves that add movement to the otherwise smooth surface of the steel. The result is a sophisticated door that is both bold and minimalist — two of the core tenets of contemporary style.

Mundo steel door

Choosing a bright color such as red brings life to an otherwise subdued exterior. The finishing touch? A minimalist handle complements this modern door's embossed lines perfectly.

Asymmetrical Design

Although stunning without doorglass, Era's asymmetrical composition is designed to leave room for a pull bar or a 7" x 64" doorglass — perfect for adding light to a narrow entrance where there are no windows.

NEW
Era steel door

with **Decorative Accents** and

We love Mid-century modern houses ! We want to see them at their best looking fresh and up to date. The new Era door is in perfect harmony with this style's many assets: simplicity, asymmetry, and geometry. Painting this door in a vibrant color will add contrast to your facade's neutral and natural tones. Rediscover the exciting color palettes that made this type of architecture so memorable.
