Our professional fee does not include any third-party fees (also known as disbursements)

Third-party disbursements, what are they?

Third-party fees are costs that are necessary for a funeral to take place, but are not included in the services of a Funeral Director unless otherwise stated. They are the costs paid for services out of the Funeral Director's control, payable to a third-party, by us on your behalf. Examples of these are:

Doctors Certificates/Doctors fees: A single form that is required by law to be completed by a doctor in order for the cremation to take place which is £82. (This fee is not applicable if the death is being dealt with by the Coroner).

Cremation fees: This is the cost of the cremation itself - it also includes the use of the Chapel at the Crematorium for a 30-minute service (approx time). Prices range from £875 to £1065 at the West Suffolk Crematorium depending on the time of day.

Burial fees: These will vary from place to place (we can find this out for you). Fees may include:

- The purchase of the grave plot
- Grave reopening if the plot is an existing grave
- Interment fee
- New grave fee
- Removal of existing headstone

Minister/Officiant fee: A fee payable to the Minister or Officiant taking the funeral service which is from £200.

Local Direct Cremation

We can now do what is known as a "Direct Cremation" at West Suffolk Crematorium, and visits to our Chapel of Rest are included with this option. Our service is still professional and dignified, however a restricted option and will not allow for any mourners to be at the service. Again, we include our professional fees plus that of the Crematorium and Doctor's fees (if applicable). Please ask us for more details about this service.

The fee for this starts from £995 (Inclusive)

We understand that funeral costs are constantly increasing throughout the UK. It is therefore our aim to keep these costs as low as we can. In order to do this and not have outstanding debts, we do require the funeral invoice to be paid 48-hours before the service in cleared funds. This way we aren't increasing our next family's fees due to someone else's debt. 50% of the cost will be requested at the time of arranging the funeral.
