OPEN DAY at new workshop!!

Welcome to Anna's newsletter!!

What has been happening?

Through the winter I've been settling into my new workshop at Gogar Cabinet Works. Catching up on a few jobs and teaching lots of enthusiastic beginner woodturners.

A highlight to start the year was making 12 sets of cherry drawer dividers for The Cigar Box on Royal Mile. All 12 drawers in the shop required dividers so they could get more of their cigars out on display from across the world.

A couple of other jobs just finished are the sword wall plaque above and kitchen drawer/door fronts in Ash to be painted by the customer.
