Mother Teresa 1910-1997

Blessed Teresa of Calcutta mothered the poor, sick, orphaned and dying and tended the unwanted, unloved and uncared for. She guided her Missionaries of Charities in India and throughout the World for 45 years.

Mother Teresa opened the first Home for the Dying in Calcutta. "A beautiful death," she said "is for people...to die like angels-loved and wanted".

Happy Mother's Day
