Best Gift

Don't get lost in long shopping lines, get lost in a conversation with a loved one! Record grandparents, parents, family, or friends stories; family history, important lessons learned in life, life's dreams & hardships, how did you meet your spouse, why did you choose your career, best memory of childhood, what would you do differently, how do you want to be remembered, etc. Take some time to record an interview with a loved one, using equipment such as computers, iPhones, tape recorders, or pen and paper. StoryCorps has a free Do-It-Yourself Guide to download at www.nationaldayoflistening.org. It's one of the least expensive, but most **meaningful** & permanent gifts you can give your loved ones this holiday season! And you can give the recorded interview to other family members as gifts too.
