

Your Guide to a Kitchen Remodel

by Bath Kitchen Fitters & Installers

1. Why Remodel Your Kitchen?

A kitchen remodel is a smart investment - whether you're updating a tired layout, improving functionality, or preparing your home for sale. A well-planned renovation can increase your home's value and enhance daily living.

2. Planning Your Remodel

Start by identifying what's not working in your current kitchen. Is it the layout? Storage? Style? Think about your must-haves and your budget. At Bath Kitchen Fitters & Installers, we can help you plan a kitchen that fits your space, lifestyle, and budget.

3. What Can You Change?

- Layout: Open up the space or create a better flow.
- Cabinets: Replace or reface to transform the look.
- Worktops: Upgrade to wood, quartz, laminate, or stone.
- Appliances: Improve efficiency and style.
- Lighting: Add task, under-cabinet, or ambient lighting.
- Tiling & Flooring: Choose finishes that suit your kitchen's personality.

4. Costs & Budgeting

Remodel costs vary depending on the scope. Here's a rough guide:

- Minor refresh: From £1,500
- Mid-range remodel: £3,000-£7,000
- Full rework with layout changes: From £8,000+

We'll always provide a clear, itemised quote to help you budget with confidence.

5. Our Process

1. Free consultation & site visit
2. Design & planning support (optional 3D visuals)
